CONTAIN™

herbicide

For Bermudagrass Release

ACCEPTED
JUL 21 1987
Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 241-274

ACTIVE INGREDIENT:

2-[4,5-dihydro-4-methyl-4-(1-methylethyl)-
5-oxo-1H-imidazol-2-yl]-3-pyridinecarboxylic
acid with 2-propanamine (1:1) salt¹ 14.2%

INERT INGREDIENT 88.4%

TOTAL 100.0%

¹Equivalent to 11.6% 2-[4,5-dihydro-4-methyl-4-(1-methylethyl)-5-oxo-1H-imidazol-2-yl]-3-pyridinecarboxylic acid or 1 pound acid per gallon.

EPA Reg. No. 241-

EPA Est. No. 5905-AR-01

KEEP OUT OF REACH OF CHILDREN

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION!

Avoid contact with skin, eyes or clothing. Avoid breathing spray mist. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

FIRST AID

IF ON SKIN: Wash with plenty of soap and water.

IF IN EYES: Flush with plenty of water. Get medical attention if irritation persists.

PHYSICAL AND CHEMICAL HAZARDS

Spray solutions of CONTAIN should be mixed, stored and applied only in stainless steel, fiberglass, plastic and plastic-lined steel containers.

DO NOT mix, store or apply CONTAIN or spray solutions of CONTAIN in unlined steel (except stainless steel) containers or spray tanks.

ENVIRONMENTAL HAZARDS

DO NOT apply directly to any body of water. DO NOT contaminate water by cleaning of equipment or disposal of waste.

STORAGE AND DISPOSAL

PROHIBITIONS: DO NOT store below 10°F. DO NOT contaminate water, food or feed by storage or disposal.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer local recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

-3-

IMPORTANT

DO NOT use on food or feed crops. DO NOT apply to ditches used to transport irrigation water. DO NOT apply where runoff or irrigation water may flow onto agricultural land as injury to crops may result. Keep from contact with fertilizers, insecticides, fungicides and seeds. DO NOT apply or drain or flush equipment on or near desirable trees or other plants, or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. DO NOT use on lawns, walks, driveways, tennis courts or similar areas. Prevent drift of spray to desirable plants. DO NOT use in California.

Thoroughly clean application equipment immediately after use. Flush tank, pump, hoses and boom with several changes of water after removing nozzle tips and screens (clean these parts separately).

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CONTAIN herbicide should be used only in accordance with recommendations on this label. Keep containers closed to avoid spills and contamination.

For use on unimproved bermudagrass turf such as roadsides, utility rights-of-way and other non-cropland industrial sites. The application of CONTAIN on established Common and Coastal Bermudagrass provides control of labeled broadleaf and grass weeds. Competition from these weeds is eliminated, releasing the bermudagrass. Treatment of bermudagrass with CONTAIN results in a compacted growth habit and seedhead inhibition.

Uniformly apply with properly calibrated ground equipment using at least 20 gallons of water per acre with a spray pressure 20 to 50 psi.

DOSAGE RATES AND TIMING

EARLY SPRING - DORMANT: Apply CONTAIN at 12 to 24 fluid oz. per acre when the bermudagrass is still dormant and has not initiated new growth.

SPRING - UP TO 25% GREEN-UP: Apply CONTAIN at 12 to 16 fluid oz. per acre after the bermudagrass has initiated green-up but has not exceeded 25% green-up.

NEEDS CONTROLLED

- Bedstraw (Galium spp.)
- Bishopsweed (Ptilium capillaceum)
- Buttercup (Ranunculus parviflorus)
- Carolina geranium (Geranium carolinianum)
- Fescue (Festuca sp.)
- Foxtail (Setaria sp.)
- Little barley (Hordeum pusillum)
- Seedling Johnsongrass (Sorghum halepense)
- Wild carrot (Daucus carota)
- White clover (Trifolium repens)
- Yellow woodsorrel (Oxalis stricta)

-
1. DO NOT APPLY to bermudagrass during its first growing season.
 2. DO NOT APPLY to bermudagrass that is under stress from drought, disease, insects or other causes.
 3. Temporary yellowing of bermudagrass may occur when treatment is made after growth commences.
 4. DO NOT add a surfactant.

DISCLAIMER

The label instructions for the use of this product reflect the opinion based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the use or application of the product contrary to label instructions, all of which are beyond the control of American Cyanamid Company. All such risks shall be assumed by the uses.

American Cyanamid Company warrants only that the material contained herein conforms to the chemical description on the label and is reasonably fit for the use therein described when used in accordance with the directions for use, subject to the risks referred to above.

Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profits or values or any other special or indirect damages.

American Cyanamid Company makes no other express or implied warranty, including other express or implied warranty of FITNESS OR MERCHANTABILITY.
