GENERAL INFORMATION

PURSUIT provides control of many grasses and broadleaf weeds when applied to the soil or applied postemergence to weeds. It also provides season-long control of many weeds. Sulfentrazone-containing products (such as Authority¹ Broadleaf or Canopy² XL) may be tank-mixed with PURSUIT in soil applications for enhanced weed control in soybeans.

PURSUIT may be applied postemergence to soybeans previously treated with sulfentrazone-containing products.

NOTE: Sulfentrazone-containing products are only labeled for soil applications to soybeans.

When tank-mixing herbicides, always follow the most restrictive label.
