APR 29 2011

Dear Ms. Fisher:

Subject: Supplemental Label Amendment; Weed Control In Birdsfoot Trefoil
Pursuit Herbicide
EPA Registration No. 241-310
Submission Date: March 31, 2011 (emailed)

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy is enclosed for your records. You have twelve months from the date of this letter or until the next label printing, whichever comes first, to incorporate these changes into the master label. Please submit one (1) final printed copy for the above mentioned label before releasing the product for shipment. If you have any questions regarding this label, please contact me at (703) 306-0415 or davis.kable@epa.gov.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Kable Bo Davis", written over a horizontal line.

Kable Bo Davis

Registration Division (7505P)

Supplemental Label

For weed control in birdsfoot trefoil in the state of Utah only

This supplemental label expires on December 31, 2013.

Active Ingredient*:

Ammonium salt of imazethapyr (+)-2-[4,5-dihydro-4-methyl-4-(1-methylethyl)-5-oxo-1H-imidazol-2-yl]-5-ethyl-3-pyridinecarboxylic acid.....

Other Ingredients:

Total:

* Equivalent to 21.6% (+)-2-[4,5-dihydro-4-methyl-4-(1-methylethyl)-5-oxo-1H-imidazol-2-yl]-5-ethyl-3-pyridinecarboxylic acid
1 gallon contains 2.0 pounds of active ingredient as the free acid.

22.87%
77.13%
100.00%

EPA Reg. No. 241-310

Directions For Use

Refer to the Pursuit® herbicide main label, EPA Reg. No. 241-310, for complete Directions For Use and all applicable restrictions and precautions. When following the instructions on this supplemental label, the user must have this label and the entire Pursuit container label in possession at the time of pesticide application.

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Use Rate

4 ozs/A Pursuit

Apply Pursuit at a broadcast rate of 4 ozs/A postemergence only to seedling or established birdsfoot trefoil grown for forage or hay. Apply Pursuit to birdsfoot trefoil with nonionic surfactant (NIS) and urea ammonium nitrate (UAN) or ammonium sulfate (AMS) only. DO NOT use crop oil concentrate (COC) or methylated seed oil (MSO) in place of NIS when applying Pursuit to birdsfoot trefoil.

A maximum of 0.063 lb ae/A of imazethapyr (4 ozs/A of Pursuit) per year may be applied to birdsfoot trefoil.

Seedling Birdsfoot Trefoil

Pursuit must be applied postemergence to seedling birdsfoot trefoil. Apply Pursuit when seedling birdsfoot trefoil is in the third trifoliate stage or larger and when the majority of the weeds are 1 to 3 inches. For low growing weeds (such as mustards), apply Pursuit before the rosette exceeds 3 inches. When Pursuit is applied to seedling birdsfoot trefoil, there may be a temporary reduction in growth.

Established Birdsfoot Trefoil

Pursuit can be applied to established birdsfoot trefoil in the fall, in the spring to dormant or semi-dormant birdsfoot trefoil (less than 3 inches of regrowth), or between cuttings. Make any application before significant birdsfoot trefoil growth or regrowth (3 inches) to allow Pursuit to reach the target weeds.

Replanting. If replanting is necessary in a field previously treated with Pursuit, DO NOT plant birdsfoot trefoil for 4 months following a Pursuit application. Refer to the ROTATIONAL CROP RESTRICTIONS section on the main label for plant-back interval of various crops.

Preharvest Interval

DO NOT feed, graze, or harvest birdsfoot trefoil for 30 days following an application of **Pursuit**[®] herbicide to birdsfoot trefoil.

Weeds Controlled

Refer to list of weeds controlled at the 4 ozs/A rate in the **ALFALFA AND CLOVER** section of the main label.

Application Information

Pursuit is effective in controlling a broad spectrum of broadleaf and grass weeds. Birdsfoot trefoil is tolerant to postemergence applications of **Pursuit** after the third trifoliate leaf has expanded. Height reduction or leaf yellowing may occur soon after application.

Apply **Pursuit** as an early postemergence treatment when weeds are actively growing. Weeds are generally easier to control before they exceed 3 inches in height. Weeds under stress are less susceptible to control in cold or drought stress conditions.

If applied to birdsfoot trefoil under cool conditions (40° F or less), temporary stunting and yellowing of the crop may occur.

Dormant Established Birdsfoot Trefoil

Pursuit may be applied to dormant birdsfoot trefoil in the fall following the last cutting. **Pursuit** may also be applied in the spring to dormant birdsfoot trefoil or as birdsfoot trefoil breaks dormancy. Apply spring treatments prior to excessive birdsfoot trefoil growth (less than 3 inches) to reduce spray interference.

Growing Established Birdsfoot Trefoil

For weed control during the season, apply **Pursuit** following birdsfoot trefoil cutting. Remove hay from the field and apply **Pursuit** prior to excessive birdsfoot trefoil regrowth.

Perennial Grass Suppression

If perennial grass (such as orchardgrass, fescue, brome or timothy) is present in a birdsfoot trefoil stand, **Pursuit** will reduce the growth and competitive effect of the grass.

Conditions of Sale and Warranty

The **Directions For Use** of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the **Directions For Use**, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER'S EXCLUSIVE REMEDY AND BASF'S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing **Conditions of Sale and Warranty** which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
