# Supplemental Labeling

## RESTRICTED USE PESTICIDE

**Due to Acute Oral and Dermal Toxicity and Risks to Aquatic Organisms and Other Wildlife from Runoff from Treated Fields**  
For retail sale to, and use only by Certified Applicators or persons under the direct supervision of a Certified Applicator, and only for those uses covered by the Certified Applicator's certification.

BASF Corporation endorses Certification to promote the responsible use of pesticides to insure the protection of man and the environment.

EPA Reg. No. 241-314

**FOR USE OF ACCENT<sup>1</sup> (nicosulfuron and nicosulfuron containing products), BASIS<sup>1</sup> and BASIS GOLD<sup>1</sup> (rimsulfuron and rimsulfuron containing products) HERBICIDES IN FIELD CORN (excluding field corn grown for seed)**

FOR DISTRIBUTION AND USE ONLY IN COLORADO, KANSAS, MONTANA, NEBRASKA, SOUTH DAKOTA, NORTH DAKOTA, WYOMING, MINNESOTA, WISCONSIN AND *SELECTED* COUNTIES (SEE COUNTY LISTS ON OPPOSITE SIDE OF THIS LABEL) IN OKLAHOMA, AND TEXAS on CORN hybrids that have NOT been designated by the seed company as sensitive to ALS herbicides. In MINNESOTA AND WISCONSIN use only in soils with >1.5% organic matter.

THIS LABEL EXPIRES DECEMBER 15, 2002

### DIRECTIONS FOR USE

#### BEFORE USING, READ PRECAUTIONARY STATEMENTS ON CONTAINER LABEL

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. COUNTER CR should be applied with a granular pesticide applicator properly calibrated to assure placement and proper dosage. See label for specific instructions. This label must be in possession of the user at the time of pesticide application. Cover granules that may be exposed on the ends of the treated rows, turns and loading areas by deep disking immediately after treating fields.

Crops	Pests Controlled	Rates of COUNTER CR	Application	Remarks
FIELD CORN	Corn rootworm <sup>a</sup> Wireworms White grubs Seedcorn maggots Seedcorn beetles Corn flea beetles Maize billbugs Southern corn Billbugs Thrips Chinch bugs <sup>b</sup> Symphylans Nematodes Lance Lesion Root knot Spiral Stunt Sting Stubby root Dagger Suppression of: Cutworms <sup>c</sup> Lesser cornstalk Borers	<b>Banded</b>  6 oz per 1,000 ft. of row for any row spacing. Do not exceed 6.5 pounds per acre.	<b>Banded</b>  Place granules in a 7-inch band over the row, in front of the presswheel and incorporate evenly into the top one inch of the soil.	BASF Corporation recommends that products listed above may be applied after <b>BANDED*</b> applications of COUNTER CR.  <b>Crop injury may result from herbicide applications made to plants under stress from various factors such as abnormally hot or cold weather, drought, or water saturated soils. Refer to the respective herbicide label for restrictions and precautions.</b>  If application is made at planting, do not make postemergence or cultivation time treatments of COUNTER CR.  <sup>a</sup> COUNTER CR controls all species of corn rootworms including southern, northern, western, and Mexican corn rootworms.  <sup>b</sup> For use in Texas only For early season control of light to moderate infestations.  <sup>c</sup> Under dry soil conditions c. heavy infestations, it may be necessary to apply an insecticide rescue treatment with another registered insecticide after corn emergence to control surviving cutworm larvae.

**ACCEPTED**  
MAR 4 2002  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 241-314
