NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(C), provided that you:

1. Submit your data requirements for registration or your product under FIFRA whenever the Agency requires all registrants to do so under FIFRA, such data.
2. Add the phrase "EPA Registration No. 241-320" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(d). Your release for shipment of any product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

CARTON BACK

**AMDRO® insecticide**

**Pharaoh Ant Control PCO Stations**

**NOW, YOU NO LONGER HAVE TO WAIT MONTHS TO GET PHARAOH ANTS UNDER CONTROL. WITH AMDRO, YOU WILL SEE RESULTS WITHIN ONE WEEK!**

AMDRO Pharaoh Ant Control PCO Station contains a patented bait formulation which kills Pharaoh ants and other common household ants. When properly used, AMDRO will attract foraging worker ants to the bait station. The ants will feed on the bait which contains Hydramethylnon, a delayed action stomach poison. Then, the worker ants will take some of this bait back to the nest where they will pass it on to kill the queen and the entire colony. AMDRO will kill both adult and larval ant forms.

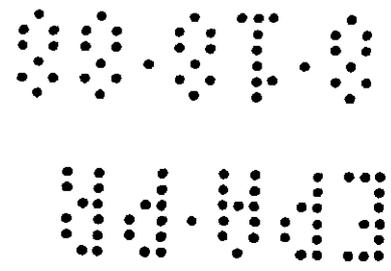

Do not use residual sprays with or near the AMDRO stations as the worker ants must remain alive to carry the bait back to the queen and immature workers. Residual sprays may cause worker ants to spread out and form secondary colonies. AMDRO works because it is non-repellent and thus will not cause secondary colony formation.

AMDRO has no odor and it is child-resistant and easy to use. It may be used for the control of ants wherever they are a problem (e.g. hospitals, nursing homes, residential establishments, warehousing, and commercial establishments, food service, food manufacturing, and food processing facilities, laboratories, computer and electronic equipment facilities, pet shops, zoos, buses, boats, and trains).

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Simply place each bait station indoors immediately next to ant trails or close to areas where ants are numerous. Nests are usually located in dark, humid and warm areas close to a water and food source. For maximum effectiveness in Pharaoh ant control, AMDRO should be placed in or near wall voids, electrical outlets (if wiring permits), potted plants, waste-paper baskets, garbage cans and sinks. AMDRO can be placed in cabinets, next to food and dishes, near sensitive equipment or anywhere your ant problem occurs.

2. For normal infestations, you should use 3 AMDRO bait stations in an average size room. For heavier infestations, you will need additional bait stations in each room. If infestation persists beyond two weeks, relocate bait stations or use additional bait stations.
3. The stickers provided in the box can be used to attach AMDRO to vertical surfaces if desired.
4. Do not spray the bait stations. Avoid placing the bait stations on freshly sprayed surfaces.
5. Increased ant activity may be seen near the bait stations immediately after placement for short periods but you can expect to see less activity within one week. After placement, ant trails may be observed between the bait stations and the nests. For best results, do not interfere with the ants or the stations during their use because ants must carry the bait back to destroy the queen and colony.
6. Replace all bait stations every 3 months for continuous control of ants.

**PRECAUTIONARY STATEMENTS**

**CAUTION**

**HAZARDS TO HUMANS**

**MAY BE HARMFUL IF SWALLOWED**

**STATEMENT OF PRACTICAL TREATMENT:** If swallowed, drink two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. In case of emergency, call collect, day or night, 201-835-3100.

**STORAGE AND DISPOSAL:** Do not contaminate water, food, or feed by storage or disposal. Do not remove baits from container. Wrap used containers and put in a garbage can.
