**PURSUIT PLUS EC AND SULFENTRAZONE-CONTAINING PRODUCTS
FOR WEED CONTROL IN SOYBEANS**

OBSERVE ALL PRECAUTIONARY STATEMENTS IN THE PURSUIT PLUS EC LEAFLET LABEL BEFORE USING. SEE THE PURSUIT PLUS EC LEAFLET LABEL FOR PRECAUTIONS, WORKER PROTECTION STANDARD REQUIREMENTS, USE AREA, MIXING AND APPLICATION INFORMATION, WEEDS CONTROLLED AND ROTATIONAL CROP RESTRICTIONS.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. DO NOT apply this product through any type of irrigation system. This labeling must be in the possession of the user at the time of herbicide application.

GENERAL INFORMATION

PURSUIT PLUS EC provides control of many grasses and broadleaf weeds when applied to the soil preplant incorporated, or surface applied. It provides season-long control of many weeds. Sulfentrazone-containing products (such as Authority¹ Broadleaf or Canopy² XL) may be tank-mixed with PURSUIT PLUS EC for enhanced weed control in soybeans. Sulfentrazone-containing products may also be soil applied in a separate application from PURSUIT PLUS EC (sequential application, not tank-mixed).

Note: Sulfentrazone-containing products are only labeled for soil applications to soybeans.

When tank-mixing herbicides, always follow the most restrictive label.
