# Supplemental Labeling

## NOTIFICATION

### EPA Reg. No. 241-331 FOR USE IN SOYBEANS

## APR 3 0 1998

#### THIS LABEL EXPIRES DECEMBER 31, 1999

#### PURSUIT PLUS EC FOLLOWED BY ROUNDUP™ ULTRA ON ROUNDUP READY™ SOYBEANS

OBSERVE ALL PRECAUTIONARY STATEMENTS IN THE PURSUIT PLUS EC AND ROUNDUP ULTRA LABELING BEFORE USING. SEE THE PURSUIT PLUS EC LEAFLET LABEL FOR PRECAUTIONS, WORKER PROTECTION STANDARD REQUIREMENTS, APPLICATION INFORMATION, WEEDS CONTROLLED, USES WITH OTHER PRODUCTS AND ROTATIONAL CROP RESTRICTIONS.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. The use of PURSUIT PLUS EC herbicide not consistent with this labeling may result in injury to crops. **DO NOT** apply this product through any type of irrigation system.

This label must be in the possession of the user at the time of herbicide application.

#### **GENERAL INFORMATION**

PURSUIT PLUS EC may be applied early preplant, preplant incorporated, or preemergence (SEE USE AREA) to Roundup Ready soybeans for early season weed control and residual activity on broadleaf weeds and grass weeds. If weeds emerge later, Roundup Ultra may be applied postemergence for weed control. For sequential treatments, a sufficient time period should elapse between treatments to allow an appropriate assessment of weed control needs.

#### USE RATE

Apply PURSUIT PLUS EC early preplant, preplant incorporated, or preemergence at 2.5 pints per acre. Apply Roundup Ultra postemergence at 1 pint per acre.

#### **DIRECTIONS FOR USE**

For the Roundup Ultra application, as specified on this label only, the addition of a non-ionic surfactant (containing at least 80% active ingredient) at 0.25% v/v (1 quart in 100 gallons of spray mixture), AND ammonium sulfate (spray grade) at 2.5 lbs/acre, is recommended. Apply when weeds are 1-3 inches tall.

Note: DO NOT apply Roundup Ultra postemergence to non-glyphosate resistant soybears.

(see other side)

#### **USE AREA**

DO NOT apply PURSUIT PLUS EC to soybeans in North Dakota or in Minnesota north of state highway 210. DO NOT apply PURSUIT PLUS EC after soybean planting north of Interstate Highway I-80.

#### **ROTATIONAL CROP INFORMATION**

Refer to rotational crop restrictions listed in the PURSUIT PLUS EC product label.

Use of PURSUIT PLUS EC herbicide in accordance with label directions is expected to result in normal growth of rotational crops in most situations; however, various environmental and agronomic factors make it impossible to eliminate all risks associated with the use of this product and, therefore, rotational crop injury is always possible.
