

MAR 27 2000

Mark Galley
American Cyanamid Company
P.O. Box 400
Princeton, NJ 08543-0400

Dear Mr. Galley:

Subject: CRP Rotational Crops
Raptor Herbicide
EPA Registration No 241-379
Your Submission Dated March 20, 2000

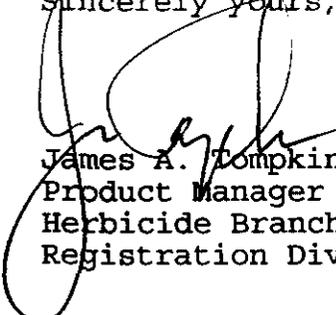

The amendment referred to above, submitted in connection with registration under section 3(c)(7)(A) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable provided that you:

1. Submit/cite all data required for registration/-reregistration of your product under FIFRA section 3(c)(5) or 4(a) when the Agency requires all registrants of similar products to submit such data.

2. Submit one (1) copy of your final printed labeling before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely yours,

James A. Tompkins
Product Manager (25)
Herbicide Branch
Registration Division (7505C)

Enclosure

Supplemental Labeling

EPA Reg. No. 241-379

FOLLOW CROP GUIDELINE FOR LAND ENROLLED IN THE CONSERVATION RESERVE PROGRAM

THIS LABEL EXPIRES APRIL 30, 2002

OBSERVE ALL PRECAUTIONARY STATEMENTS IN THE RAPTOR FULL LEAFLET LABEL BEFORE USING. SEE THE RAPTOR LEAFLET LABEL FOR PRECAUTIONS, WORKER PROTECTION STANDARD REQUIREMENTS, APPLICATION INFORMATION, WEEDS CONTROLLED, USES WITH OTHER PRODUCTS AND ADDITIONAL ROTATIONAL CROP RESTRICTIONS.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. The use of RAPTOR herbicide not consistent with this labeling may result in injury to crops. **DO NOT** apply this product through any type of irrigation system. This labeling must be in the possession of the user at the time of herbicide application.

ROTATIONAL CROP INFORMATION

In addition to selected crops and rotational intervals listed on the RAPTOR leaflet label, the following rotational crops may be planted:

Four months after applying up to 5 fluid ounces per acre of RAPTOR herbicide:

- | | | |
|--------------------|-------------------|-------------------------|
| Big Bluestem | Little Bluestem | Sand Bluestem |
| Smooth Bromegrass | Green Needlegrass | Indiangrass |
| Prairie Sandreed | Reed Canarygrass | Intermediate Wheatgrass |
| Sideoats Grama | Switchgrass | Crested Wheatgrass |
| Western Wheatgrass | Tall Wheatgrass | |

Nine months after applying up to 5 fluid ounces per acre of RAPTOR herbicide:

- | | | |
|----------------------|-------------|--------------------------------|
| Purple Prairieclover | Sweetclover | Other native forbs and legumes |
|----------------------|-------------|--------------------------------|

Use of RAPTOR herbicide in accordance with label directions is expected to result in normal growth of rotational crops in most situations; however, various environmental and agronomic factors make it impossible to eliminate all risks associated with the use of this product and, therefore, rotational crop injury is always possible.

ACCEPTED
with COMMENTS
In EPA Letter Dated:
MAR 27 2000

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 241-379
