

Supplemental Labeling

EPA Reg. No. 241-385

FOR USE IN SUCCULENT PEAS, DRY EDIBLE PEAS, CHICKPEAS, LENTILS, LIMA BEANS, ALFALFA, AND CLEARFIELD* CORN

OILSEED RAPE (CANOLA) FOLLOW CROP

THIS LABEL EXPIRES DECEMBER 31, 2003

OBSERVE ALL PRECAUTIONARY STATEMENTS AND LIMITATIONS ON THE PURSUIT W LEAFLET LABEL AND ON TANK MIX PARTNER LABELS. FOLLOW THE MOST RESTRICTIVE USE PRECAUTIONS OR DIRECTIONS FOR APPLICATION THAT APPEAR ON ANY PRODUCT LABEL.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **DO NOT** apply this product through any type of irrigation system.

This labeling must be in the possession of the user at the time of herbicide application.

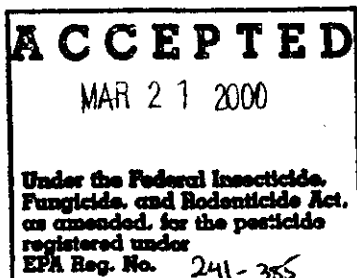

CANOLA FOLLOW CROP

CLEARFIELD (imidazolinone tolerant) varieties of canola, such as Pioneer 45A71 and Pioneer 46A76, may be planted as a rotational crop the next season after an application of PURSUIT W herbicide at label rates on registered crops.

For other follow crops including non-imidazolinone tolerant canola, follow instructions on the PURSUIT W leaflet label.

If PURSUIT W is used on a field treated with another herbicide, follow the most restrictive precautions, directions and recropping/rotation limitations that appear on the respective product labels.

Excessive moisture, drought and/or cold temperatures may affect the performance of PURSUIT W as well as the residual effect on rotational crops. **DO NOT** plant rotational crops in spray overlap areas, as follow crop injury may occur. The end user assumes all risks and consequences resulting from sprayer overlaps from ground and aerial applications.
