CAUTION: KEEP OUT OF REACH OF CHILDREN

COMBUSTIBLE MIXTURE
N.Y.F.D.C. of A. No. 2563

P. C. B. FOG OIL

An insecticide especially prepared for thermal aerosol generators.

ACTIVE INGREDIENTS:

	100%
Pyrethrins	0.5%
Technical Piperonyl Butoxide*	1.0%
N-octyl bicycloheptene dicarboximide**	1.66%
Petroleum Distillate	96.84%

*Consists of .8% (butyl carbityl) (6-propyl piperonyl) ether and 2% other related compounds.

**Insecticide Synergist, U.S. Patent No. 2,476,512

DIRECTIONS: Use at the rate of 1/2 to 1 ounce per 1,000 cubic feet in smoke aerosol producing machines, for the control of exposed stages of the following insects: Cockroaches, cereal moths, flies, mosquitoes, weevils, and earwigs, and the accessible stages of flour beetles and many other insect pests. Repeat as required. For increased effectiveness and economy when used indoors, the smoke should be confined by closing windows and doors until smoke clears.

NOTE: A USDA Approved Face Mask protecting against low concentrations of organic vapors should be used to avoid excessive breathing of the smoke which may prove irritating to the nose and throat.

CAUTION: Harmful if swallowed. Keep out of reach of children. Do not spray on or near an open flame. Avoid contamination of feed and foodstuffs. Prior to spraying, remove children and pets from area to be treated. Cover fish bowls and tanks. Shut off fans and air conditioners. Use PCE Fog Oil in food processing plants only when plant is not in operation. Feeds should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.
