ACTIVE INGREDIENTS 100.00%

Petroleum Distillates	99.00%
Technical Piperonyl Butoxide*	0.5 %
Pyrethrins	0.5 %

*Equivalent to 0.40% (dibutyltinyl) 16-propylpiperonyl ether and 0.10% other related compounds

DIRECTIONS: ROACHES, WATERBUGS, SILVER FISH, ANTS. Aim a coarse wet spray directly at insects where possible. Also spray cracks, crevices, base boards and darkened areas behind sinks, cabinets, and stoves. Spray ant trails, particularly around door sills and window frames. Leave room closed for 15-20 minutes after spraying. Ventilate room, sweep up and destroy fallen insects. Repeat treatment as necessary.

FLIES, FLYING MOTHS, MOSQUITOES, GNATS: Close all doors and windows if possible. Fill room with fog at the rate of 3-5 seconds per 1000 cubic feet. Direct spray upward and to all parts of room. Do not remain in treated areas. After 20 minutes ventilate room and sweep up and destroy fallen insects. Repeat as necessary.

AFC general purpose spray

TYPE III

A SYNERGIZED PYRETHRINS INSECTICIDE SUITABLE FOR USE IN THE EDIBLE PRODUCTS AREAS OF FOOD PROCESSING PLANTS. KILLS CRAWLING AND FLYING INSECTS.

Accessible stages of confused flour beetles, red flour beetles, sawtooth grain beetle, spider beetle, angoumois grain moth, Mediterranean flour moth, Indian meal moth, granary weevil and rice weevil are controlled in stored product areas by closing doors and windows and directing spray toward walls, cross-beams, under-sides of pallets, over and around stacked goods, into empty bins and into corners, so as to effect thorough coverage of all surfaces. More frequent applications, at least weekly, should be made during hot weather.

CAUTION: Harmful if swallowed. Keep out of reach of children. Do not spray on or near an open flame. Avoid contamination of feed and foodstuffs. Prior to spraying, remove children and pets from area to be treated. Cover fish bowls and tanks. Shut off fans and air conditioners. Use AFC General Purpose Spray Type III in food plants only when plant is not in operation. Floors should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.
