N.Y.F.D.C. OF A. No. 2563

P.C.E.
PYRETHRUM SPACE SPRAY

ACTIVE INGREDIENTS:		100.0%
Petroleum Distillate	97.2%	
Pyrethrins	.3%	
*Technical Piperonyl Butoxide	<u>2.5%</u>	

** Equivalent to 2.0% (butylcarbityl) (6-propylpiperonyl) ether and .5% other related compounds.

DIRECTIONS: ROACHES AND WATERBUGS are controlled by closing windows and doors and filling room with fog, after directing spray under sinks, refrigerators, into washrooms, under tables and shelving, toward baseboards and moldings and around pipe openings in walls, etc. After twenty minutes the room should be ventilated and the fallen insects swept up and destroyed. Repeat treatment as often as necessary.

The accessible stages of GRAIN BEETLES, FLOUR WEEVILS AND MEAL MOTHS are controlled in stored product areas by closing doors and windows and directing toward walls, cross beams, under pallets, over and around stacked goods, into emptied bins, directing spray into corners etc. to get thorough coverage of all surfaces. More frequent applications, at least weekly should be made during hot weather.

CAUTION: Harmful if swallowed. Keep out of reach of children. Do not spray on or near an open flame. Avoid contamination of feed and foodstuffs. Prior to spraying remove children and pets from area to be treated. Cover fish bowls and tanks. Shut off fans and air conditioners. Use P.C.E. Pyrethrum Space Spray as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using.
