COMBUSTIBLE MIXTURE
DO NOT USE OR STORE NEAR HEAT OR OPEN FLAME
NYFDC of A. No. 2563

PCE WATER MISCIBLE 110
(Synergized Pyrethrins)

CAUTION: KEEP OUT OF REACH OF CHILDREN

ACTIVE INGREDIENTS:

Petroleum Distillate	81.67%	88.00%
N-octyl bicycloheptene dicarboximide*	3.33%	
Technical Piperonyl Butoxide**	2.00%	
Pyrethrins	1.00%	

INERT INGREDIENTS:

TOTAL

12.00%
100.00%

* U. S. Patent No. 2,476,512

**Equivalent to 1.60% (butylcarbityl) (6-propylpiperonyl) ether and
0.40% other related compounds.

DIRECTIONS: Dilute one part PCE Water Miscible 110 in 4 parts of water.
Use as a wet spray to control Roaches, Ants, Waterbugs, Silverfish,
Spiders, and Crickets. Spray thoroughly all areas where these insects
have been observed. Spray directly on insects when possible. Do not
contaminate feed, food or drinking water. Repeat treatment as required.

FOR PEST CONTROL OPERATORS ONLY: Mix 8 ounces PCE Water Miscible 110
plus 1 1/4 ounces Diazinon 4E in one gallon of water to improve knockdown
and flushout. In cases of heavy infestation up to 2 1/2 ounces of Diazinon
4E may be included. Use as a spot application only to control Roaches,
Ants, Waterbugs, and Silverfish. Spray in cracks, around baseboards,
and other places where these insects hide. Also spray surfaces behind
and beneath cabinets, drinking fountains, refrigerators, sinks and stoves.
Do not contaminate drinking water. Use on other localized areas infested
with these pests. Repeat treatment as required.

CAUTION: Harmful if swallowed. Keep out of reach of children. Avoid
contamination of feed and foodstuffs. Avoid inhalation. May be ab-
sorbed through skin. Avoid skin contact. Wash Thoroughly after
handling. Avoid contact with eyes and clothing. Do not use on house-
hold pets or humans. Cover or remove aquaria in areas to be treated.
When used in food processing plants foods should be removed or should be
covered during treatment. All food processing surfaces should be covered
during treatment, or thoroughly cleaned before using.
