LAND

Sold to graduate veterinarians only.

This shampoo kills fleas and lice, at the same time conditioning and beautifying the coat. Contains lanolin combined with finest bland oils. Lathers freely and leaves the coat shining. Provides effective deodorizing.

*Directions:* Wet the animal thoroughly, sprinkling on a small amount of shampoo. Create lather at the head, working well around the ears. Then lather over animal's entire body, working backward. Be sure lather is rubbed thoroughly into folds of skin, between the toes, etc. Allow lather to remain approximately five minutes, then rinse. For stubborn cases repeat as above.

Contents may become cloudy at lower temperatures. Cloudiness will vanish at room temperature.

Active Ingredients	37.098%
Anise Oil	1.000%
Ethylene Diamine	
Tetraacetic Acid	0.500%
Pyrethrins	0.054%
