DIRECTIONS FOR USE

Apply to all surfaces of grain storage, including walls and floors, and to all areas of grain infestation (such as corn cobs, wheat, sorghum, and other grains). Apply to all areas of stored grain, including bins, elevators, and other structures. Apply to all areas of stored grain, including bins, elevators, and other structures. Apply to all areas of stored grain, including bins, elevators, and other structures.

Keep the treated area closed if possible for 15 minutes. After treatment, air out thoroughly and sweep up and remove dead insects. In industrial locations, do not spray closer than 10 feet from workers or machinery. Spraying closer than 10 feet may cause damage.

CAUTION: Do not apply directly to food. Cover or remove food from food processing equipment during application. Do not apply while food processing is in progress. After spraying, do not wash or clean food processing plants, bins, elevators, etc. where treated. Wash hands thoroughly after use. Do not allow food to come in contact with treated surfaces for at least 48 hours.
