BRUSH CONTROL: To control undesirable woody plants on non-cropland areas such as RAILROAD RIGHT OF WAYS, STORAGE AREAS, INDUSTRIAL PLANT SITES and DRAINAGE DITCHES:

Apply in spring or summer as a broadcast or basal (spot) treatment; for use on drainage ditches, apply as a basal (spot) treatment only. Note: For effective brush control and prevention of damage to desirable vegetation; do not apply to brush standing in water; do not use water from treated ditches for irrigation; do not use in irrigation ditches nor on right of ways or other sites where marketable timber or other desirable trees or shrubs are immediately adjacent to the treated area.

Broadcast Treatment - Apply 22 to 50 gals. per acre to control oak, willow, sweet gum, and pine; apply 60 to 120 gals. per acre to control brush such as American elm, winged elm, hackberry, sumac, and cottonwood. Use the higher levels of the dosage ranges on absorptive soils (those high in organic matter or carbon.)

Basal (Spot) Treatment - USE FULL STRENGTH AND APPLY at the rate of 2 to 4 fl. oz. per stem of 2" to 4" in base diameter; wet base of stem to run-off. Treatment controls woody plants such as cottonwood, hackberry, maple, oak, poplar, red bud, sweet gum, wild cherry, willow, and winged elm.

To control **PERENNIAL WEEDS and GRASSES:** Dilute 94 to 198 oz. Bromacil Weed Killer (3 qts. to 1 1/2 gallons) to 5 gallons with water. Apply to 1000 square feet as above.

IMPORTANT - Injury to or loss of desirable trees or other plants may result from failure to observe the following. Do not apply, or drain or flush equipment on or near desirable trees or other plants or on areas where their roots may extend, or in locations where the chemical may be washed or moved into contact with their roots. Do not use on lawns, walks, drive-ways, tennis courts, or similar areas. Prevent drift of spray to desirable plants. Do not contaminate domestic waters. Keep from contact with fertilizers, insecticides, fungicides and seeds. Thoroughly clean all traces of Bromacil Weed Killer from application equipment immediately after use.
