HAVRE de GRACE, MARYLAND 21078

LOS ANGELES, CALIFORNIA 90013

This product is a cleaner, disinfectant, and sanitizer, designed for institutional use, such as Hospitals, Nursing Homes, and Schools, where housekeeping will be of prime importance in controlling cross infection. Hard surface sanitation can help in this control, and can provide the assurance you need in this area when used as directed.

## DANGER

Keep Out of Reach of Children. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

## FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

## USE DIRECTIONS:

Use at 2 ounces per gallon. This product will be effective against *Pseudomonas aeruginosa* PRD-10 at this level. This has been substantiated by the AOAC Use Dilution Confirmation Test. At this level, the product is fungicidal against pathogenic fungi. For best results, use with a cloth or mop and apply to walls, floors and other hard surfaces.

If used to sanitize food equipment or other food contact items, limit the level to 200 ppm of quaternaries. 0.75 oz. per gal. equals 200 ppm. At this level No Potable Water Rinse is required.

For heavy or organic matter, a precleaning step is recommended.

Rinse empty container thoroughly with water and discard it.
