

This product is a cleaner, virucide, disinfectant and sanitizer designed for institutional use, such as hospitals, nursing homes and schools where housekeeping is of prime importance in controlling the hazard of cross infection from inanimate surfaces. For use on floors, walls, sink tops, garbage pails, telephones, rest rooms, bed pans and operating rooms and other environmental surfaces. Effective against Influenza A₂ (Flu Virus), Herpes Simplex (cold sores, fever blisters), Adenovirus Type Z (acute respiratory disease) and Vaccinia (smallpox) viruses in addition to Staphylococcus Aureus, Salmonella Chloeraesuis, and Pseudomonas Aeruginosa on environmental surfaces. Also effective against pathogenic fungi, Trichophyton interdigitale (cause of Athlete's foot) on environmental surfaces.

When used for sanitization of food processing equipment and food contact surfaces, limit active ingredients to 200 ppm. A Potable Water Rinse is not required except at concentrations above 200 ppm.

DANGER — Keep Out of Reach of Children. Corrosive - causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and protect skin when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID — In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. Immediately call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

USE DIRECTIONS — Mix 2 ounces of this product to one gallon of water. At this level, it is effective against all the organisms listed above. Wet surface thoroughly with a mop or cloth. When used for sanitizing food equipment or food contact surfaces, limit the level of active quaternary to 200 ppm (2.8 ounces per 5 gal.) (1 to 228). **NO RINSE REQUIRED AT 200 PPM LEVEL.**

For sanitizing in the presence of extremely heavy soil or organic matter, a pre-cleaning step is recommended.

PHENOL COEFFICIENTS:

Guaranteed Minimum	
S. aureus	42
S. typhosa	27

STORAGE AND DISPOSAL
Store only in tightly closed, original container in a secure area inaccessible to children. Do not contaminate water, food, or feed by storage or disposal. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance.

Do not reuse empty container. Triple rinse empty container with water. Return metal drums to reconditioner or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated or, if allowed by local authorities, by burning. If burned, stay out of smoke.
