1 Gallon

# Chemcide

Active Ingredients—**MBP** (C16 80%, C12 40%, C18 10%) **Dimethyl Benzyl Ammonium Chloride** 12.5%  
Inert Ingredients 87.5%  
Phenol Coefficient: **Dimethyl Benzyl Ammonium Chloride** 87%

Mixture in water containing up to 500 ppm hardness.

EPA Reg. No. 500-6 EPA Est. No. 280-MO-1  
☉ CORROSIVE ☉ FLAMMABLE ☉ IRRITANT ☉ OBSCURANT

### DIRECTIONS FOR USE

In all cases, clean surfaces prior to application of solution as indicated.  
**TO DISINFECT BATHS AND SHOWER UTENSILS** and ceiling drains: rinse utensils in solution 1 ounce Chemcide to 2 gallons water. Thoroughly rinse with potable water, air dry, do not towel.  
**TO DISINFECT WALLS, FLOORS, CURTAINS, BOON KINGS, TOILET SEATS, LAVATORIES, URINALS, SINKS, SPOONS, AND OTHER UTENSILS** and ceiling drains: use solution 1 ounce Chemcide per gallon water. Rinse thoroughly with potable water.  
**FOR DISINFECTING BATH ROOMS AND SINK BOTTLES** use solution 1 ounce Chemcide in or flush equipment with solution of 1 ounce Chemcide to 2 gallons water. Be sure matter has been removed before disinfecting. Rinse thoroughly with potable water.  
**TO DISINFECT BATHS, SHOWERS AND SHOWER UTENSILS** use 1 ounce Chemcide to 2 gallons water for 15 minutes.  
**TO CONTROL T. BRUNNABALLI** — The fungus causing Athlete's Foot: environmental surfaces: stop shower room floors and locker room floors with solution: 1 ounce Chemcide per gallon water.

### USE IN SWIMMING POOLS:

1. In heavily used pools or pools showing no visible algae growth, add 1 gallon of this product to 25,000 gallons of water to prevent algae growth.
2. If algae growth is observed, add 1 gallon of this product for each 25,000 gallons of water to kill and control those algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and re-fill if necessary, and add 1 gallon of this product for 25,000 gallons of water.
3. If the pool water tested as in (1) or (2) is re-cycled, add 1 gallon of this product for 25,000 gallons of water every five to seven days, to maintain between 2 and 5 ppm active ingredient. Run aeration pump for last 15 min.
4. If the pool water tested as in (1) and (2) above is not re-cycled or not filtered, it should be tested periodically to determine the active ingredient content. When necessary 1 gallon of this product for 25,000 gallons of water should be added to maintain 2 to 5 ppm of active ingredient.

**TO DEODORIZE, DISINFECT AND STOP PUTREFACTION IN GARBAGE CANS, URINALS,** spray or wipe with solution 1 ounce Chemcide per gallon water.

Do not mix with soap or synthetic detergents.

Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water.

Rinse empty container thoroughly with water and discard it.

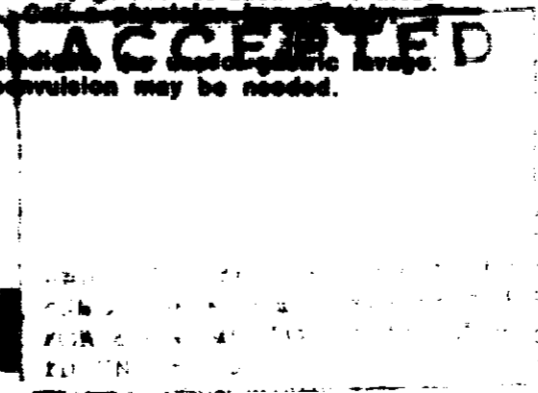

### DANGER:

Keep Out of Reach of Children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
