

FOR INSTITUTIONAL, COMMERCIAL OR INDUSTRIAL USE

Net Contents  
1 Gallon

PLUS

Active Ingredients—N-Alkyl (C14 80%, C12 40%, C16 10%) Dimethyl Benzyl Ammonium Chloride ..... 6.25%  
Inert Ingredients ..... 88.75%  
Phenol Coefficient: *Salmonella Typhosa* ..... 85%  
*Staphylococcus Aureus* ..... 43%

Effective in water containing up to 500 ppm hardness.

EPA Reg. No. 299-53

EPA Est. No. 299-MO-1

● GERMICIDE

● FUNGICIDE

● DISINFECTANT

● DEODORANT

**DIRECTIONS FOR USE**

In all cases, clean surfaces prior to application of solution recommended.

**TO DISINFECT EATING AND DRINKING UTENSILS** and cooking utensils: rinse utensils in solution 2 ounces PLUS to 5 gallons water. Thoroughly rinse with potable water, air dry, do not towel.

**TO DISINFECT WALLS, FLOORS, CEILINGS, DOOR KNOBS, TOILET SEATS, LAVATORIES, URINALS, TELEPHONES**, wipe or spray surfaces with solution 2 ounces PLUS per gallon water.

**FOR COLD DISINFECTION OF SURGICAL INSTRUMENTS AND RUBBER GLOVES**, use solution 2 ounces PLUS per quart water. Submerge instruments for 10 minutes.

**FOR DISINFECTING DAIRY EQUIPMENT AND MILK BOTTLES** rinse equipment in or flush equipment with solution of 2 ounces PLUS to 5 gallons water. Be sure all organic matter has been removed before rinsing. Finally, thoroughly rinse with potable water.

**TO DISINFECT BARBER SHOP AND BEAUTY PARLOR UTENSILS** dip in a solution of 2 ounces PLUS to 3 quarts water for 15 minutes.

**TO CONTROL T. INTERDIGITALE** — The fungus causing Athlete's Foot — on environmental surfaces, mop shower room floors and locker room floors with solution: 2 ounces PLUS per gallon water.

**USE IN SWIMMING POOLS:**

1. In freshly filled pools or pools showing no visible algae growth, add 1 gallon this product to 21,250 gallons of water to prevent algae growth.
2. If algae growth is observed, add 1 gallon of this product for each 12,500 gallons of water to kill and control those algae species most commonly found in swimming pools. When existing growth is dead, clean the pool, drain and re-fill if necessary, and add 1 gallon of this product for 21,250 gallons of water.
3. If the pool water treated as in (1) and (2) is re-cycled, add 1 gallon of this product for 21,250 gallons of water every five to seven days, to maintain between 2 and 5 ppm active ingredient. See service man for test kit.
4. If the pool water treated as in (1) and (2) above is not re-cycled or not filtered, it should be tested periodically to determine the active ingredient content. When necessary 1 gallon of this product for 21,250 gallons of water should be added to maintain 2 to 5 ppm of active ingredient.

**TO DEODORIZE, DISINFECT AND STOP PUTREFACTION IN GARBAGE CANS, URINALS**, spray or wipe with solution 2 ounces PLUS per gallon water.

Do not mix with soap or synthetic detergents.

Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water.

Rinse empty container thoroughly with water and discard it.

**WARNING:**

Keep Out of Reach of Children. Causes eye or skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.
