

**PRECAUTIONARY STATEMENTS**  
 Hazard to Humans, Domestic Animals and Wildlife

**CAUTION**  
 Harmful if swallowed. Avoid contact with skin, eyes or clothing. Avoid inhalation of powder while mixing solutions. The active ingredient in this product is an anticoagulant. If FUMASOL-S or solutions made from it are swallowed, clotting ability of blood may be reduced and bleeding result. In such cases, intravenous and oral administration of Vitamin K combined with blood transfusions may be indicated as in the case of hemorrhage caused by overdoses of bishydroxycoumarin.

**ENVIRONMENTAL HAZARDS**  
 Keep away from any body of water. Do not contaminate water by cleaning of equipment or disposal of wastes.

**DIRECTIONS FOR USE**  
 Baits should be placed in areas not accessible to children, pets, wildlife, and domestic animals and in tamper proof bait boxes. FUMASOL-S solutions must be used in conjunction with tamper proof bait boxes when used out of doors. Apply this product only as specified on the label.

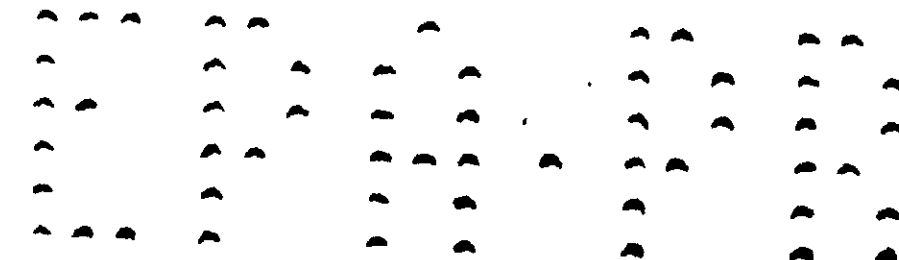

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**STORAGE AND DISPOSAL**  
 Do not reuse container. Destroy by crushing and burying in a pit located away from water supplies or agricultural areas.

**WARRANTY**  
 Amchem warrants that composition of this product conforms to the chemical description given in the ingredient statement and the product is suited for the purposes described when used according to directions. Because of the broad range of conditions which may be encountered with the use of the product, it is impossible to eliminate all risks, even though label directions are followed. Amchem therefore makes no other express or implied warranty, and no agent of Amchem is authorized to do so. Buyer agrees in purchasing this product to assume the risks and in the event of damages arising from a breach of the warranty to accept refund of the purchase price of the product as full discharge of Amchem's liability.

### DIRECTIONS FOR USE

**PREPARATION OF SOLUTION:** Dissolve 1.5 oz. (contents of this packet) in one quart of water.

**PLACE BAIT SOLUTION** in chick founts, special-purpose bait dispensers, or other convenient containers. Use quart or pint quantities, dependent on the extent of infestation.

Place solution where rats and mice feed and water or where they travel and live. Bait solutions must be placed in a dark location and along walls or in corners.

**BAIT CONTINUOUSLY** and keep solution constantly available, inspect each station regularly and replenish as necessary so continuity of drinking is not interrupted. FUMASOL-S solution must be available for at least 15 days.

**REMOVE COMPETING LIQUIDS**, as practical, so the rodents will drink FUMASOL-S solution.

**PROTECT BAIT** from children, pets and livestock. Do not place solutions where spillage would contaminate food or feed products.

**REPLACE SOLUTION** if it should become contaminated, molded, or otherwise unfit. FUMASOL-S contains a mold inhibitor and preservative to make bait solutions last longer.

Target animals for FUMASOL-S are Norway rats—*Rattus norvegicus*; roof rats—*Rattus rattus*; house mouse—*Mus musculus*.

**FOR RATS**, use two pint or quart bait placed at points of greatest activity. Look for such telltale signs as gnawing tracks or trails, burrows, droppings or damage. An uninterrupted supply of bait must be available for at least 10 days.

**FOR MICE**, place 1.0 pint of bait at 8 to 10 ft. intervals where mice are active. An uninterrupted supply of bait must be maintained for at least 15 days.

**PROTECT** solution with tamper proof bait boxes. Mark containers so they will not be used by mistake for poultry drinking water.
