

FOR CONTROL OF PRE-HARVEST DROP OF APPLES & PEARS

DIRECTIONS - PRE-HARVEST DROP

NAA-800 contains 800 grams of naphthalenesulfonic acid equivalent per gallon and has been formulated for aerial and ground applications to control pre-harvest drop of apples and pears.

It is important that aerial operators apply NAA-800 under conditions where drift can be minimized so that material is equally distributed over the area being sprayed.

Applications should be completed in time to become effective before actual pre-harvest drop begins. NAA-800 becomes effective in one or two days when applied in summer and early fall maturing varieties. For later varieties ripening during cooler weather, a slightly longer period is necessary. Healthy foliage, freedom from insect and mite damage is necessary for the most effective action from this material. For maximum effectiveness, sprays should be applied when the temperature is 70° F. or higher.

For aerial application use at least 2 gallons of water per acre and for ground application use at least 1 gallon of water to insure good coverage.

AMOUNTS PER ACRE

Pre-harvest drop of apples and pears is extremely important. Make applications before the fruit begins to drop. With summer and early fall varieties, 1.5 pints NAA-800 per acre should be used, especially in hot weather.

For later varieties, 1.5 pints NAA-800 per acre is suggested. A second application of the same amount can be applied 3 to 5 days after the first application.

For pears, 1.5 pints NAA-800 per acre is suggested. A second application of the same amount can be applied 3 to 5 days after the first application.

For apples and pears, 1.5 pints NAA-800 per acre is suggested. A second application of the same amount can be applied 3 to 5 days after the first application.

IMPORTANT: NAA-800 delays fruit drop, but does not affect normal ripening. The fruit must be picked at the proper stage of maturity, even though NAA-800 is still effective.

Do not apply to red delicious apples grown in the Pacific Northwest as "piky" fruit may develop.

NET CONTENTS 1 GALLON

NAA-800

For Control of Pre-harvest Drop of Apples and Pears

CAUTION: Keep out of the reach of children. See other cautions on side label.

ACTIVE INGREDIENT:

Potassium salt of 1-Naphthalenesulfonic acid 24.2%

INERT INGREDIENTS:

1-Naphthalenesulfonic acid equivalent 80.1% by weight or 80 grams per gallon 75.8%

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

CAUTION

Harmful if swallowed. Avoid contact with skin, eyes and clothing. Avoid breathing spray mist.

STATEMENT OF PRACTICAL TREATMENT

In case of eye contact flush with water for at least 15 minutes. In case of skin contact wash with soap and plenty of water. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not contaminate irrigation ditches or water used for irrigation or domestic purposes. Do not apply when weather conditions favor drift from treated areas. Do not use in a greenhouse.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use same spray equipment for other purpose unless thoroughly cleaned.

STORAGE AND DISPOSAL

Do not store near fertilizers, seeds, insecticides or fungicides. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container. Open dumping is prohibited. Pesticide that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or according to applicable federal, state or local procedures. Do not burn. Triple rinse or equivalent and offer for recycling, reconditioning, or dispose of in an approved landfill. Consult federal, state, or local disposal authorities for approved alternative procedures.

LIMITED WARRANTY AND DISCLAIMER

The manufacturer warrants (a) that the product conforms to the chemical description on the label, (b) that this product is reasonably fit for the purposes set forth in the directions, and (c) that the directions, warnings and other statements on the label are based upon reasonable experts' evaluation of reasonable tests of effectiveness, of toxicity to laboratory animals and to plants, and of residues, and upon reports of field experience. Tests have not been made on all varieties or in all states or under all conditions. THE MANUFACTURER NEITHER MAKES NOR INTENDS NOR DOES IT AUTHORIZE ANY AGENT OR REPRESENTATIVE TO MAKE ANY OTHER WARRANTIES, EXPRESS OR IMPLIED AND IT EXPRESSLY EXCLUDES AND DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY OF FITNESS FOR A PARTICULAR PURPOSE.

This warranty does not extend to, and the buyer shall be solely responsible for, any and all loss or damage which results from the use of this product (a) in any manner which is inconsistent with the label, directions, warnings or cautions, or (b) in any other manner.

BUYER'S EXCLUSIVE REMEDY AND MANUFACTURER'S OR SELLER'S EXCLUSIVE LIABILITY FOR ANY AND ALL CLAIMS, LOSSES, DAMAGES OR INJURIES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT, WHETHER OR NOT BASED IN CONTRACT, NEGLIGENCE, STRICT LIABILITY, OR TORT OR OTHERWISE, SHALL BE LIMITED TO THE RETURN OF THE UNUSED PORTION OF THE PRODUCT TO THE MANUFACTURER OR TO THE PURCHASER WHO FOR THE QUANTITY OF PRODUCT RETURNED TO MANUFACTURER OR PURCHASER, IN NO EVENT SHALL THE MANUFACTURER OR SELLER BE LIABLE FOR SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.
