

### DIRECTIONS

Apply RACK Granular to small actively growing weeds in the spring or early summer. It is not necessary to treat bare ground before weed growth starts in the spring.

RACK Granular acts slowly, but thoroughly. Weeds turn yellow or brown within a week or two if rain falls soon after application. Young weeds are usually dead in 3 to 4 weeks. Older more resistant weeds may require 6 to 8 weeks for complete kill. For best results, treat before weeds are 8 to 10 inches tall.

Moisture following treatment is essential to activate the chemicals.

RACK Granular is a new type of dry formulation containing active weed killer throughout the particle. This permits 'slow release' over a long period of time. Roots of perennial weeds are exposed to the combination of fenac and atrazine for a long period of time. These particles are uniform sized and practically dust free.

### AMOUNTS TO USE

Where susceptible annual broadleaf weeds and grasses predominate, with scattered perennial weeds, apply 80 pounds of RACK Granular per acre.

Where deep rooted perennial weeds such as milkweed, bouncing bet, dock, dandelion, horsetail and wild parsnip predominate apply 160 pounds of RACK Granular per acre.

Be sure to use a spreader that gives even distribution of granules. Calibrate spreaders accurately and recheck calibration periodically.

For smaller areas, use the following amounts

Area to Treat		80 lb A Rate	160 lb A Rate
Square Feet	Examples	Amount RACK Granular	
5,000	50 x 100	10 lb	20 lb
10,000	100 x 100	20 lb	40 lb
20,000	100 x 200	40 lb	80 lb
30,000	100 x 300	60 lb	120 lb

# RACK Granular

A general weed killer for control of grass at buildings, parking lots, roadsides, railroads, substations, other non-agricultural sites.

**CAUTION:**  
Keep out of reach of child  
See other cautions on right panel.

**ACTIVE INGREDIENTS:**  
Sodium salt of 2,3,6-trichlorophenylacetic acid  
2-chloro-4-ethylamino-6-isopropylamine

**INERT INGREDIENTS:**  
2,3,6-trichlorophenylacetic acid equivalent

### WARRANT

Neither manufacturer nor seller makes representation as to the material other than the ingredient contained as set forth on the label. The manufacturer and the seller shall not be liable for injury to crop, soil, person or property or for the handling of the material, whether in accordance with or otherwise, and accepts the material on these conditions.

### CAUTION

Harmful if swallowed. Avoid contact with skin. Do not breathe dust. Do not contaminate clothing or domestic purposes. Do not store near food or feedstuffs or use in a greenhouse.

Do not apply to lawns or in the root zone of desirable plants or where chemical may damage their roots.

Thoroughly clean application equipment after use. Do not use same equipment for spreading seeds, insecticides or fertilizers as chemical may contaminate them.

Do not use this product for purposes other than those stated on this label.
