Do not use the same spray equipment for domestic or irrigation use in a greenhouse.
Do not graze dairy animals for 2 weeks of slaughter.
Do not apply when a temperature inversion is present, or when a smoke column and check weather services before application.
Use coarse sprays to maximize coverage. Do not apply when any of the following conditions exist:
(1) applying as near to the ground as possible;
(2) by using nozzles which produce a fine spray;
(3) by using nozzles which produce a coarse spray;
(4) by using nozzles which produce a coarse spray.
Under very high temperatures, the spray mixture may settle. Do not contaminate water, streams, rivers, food or feedstuffs. Pesticide spray mixture should be stored in a triple rinse container (or equivalent) and stored in a cool, dry place. Consult federal, state or local officials for additional conditions. Local conditions may affect application distances from treated areas. Be sure that use of this product complies with all applicable laws and regulations. away from water supplies and desirable vegetation. Keep out of any body of water.

Do not apply when runoff is likely to occur.

DIRECTIONS FOR USE

Do not apply WEEDONE 2,4-DP Woody Plant Herbicide near directly to or permit spray mist to drift onto citrus, grapes, tomatoes, fruit trees, vegetables, flowers or other desirable crop or ornamental plants which are susceptible to 2,4-DP herbicide. Very small quantities of WEEDONE 2,4-DP Woody Plant Herbicide will cause severe injury during the growing or dormant periods. Crops contacted by WEEDONE 2,4-DP Woody Plant Herbicide sprays or spray drift may be killed or suffer significant stand loss with extensive quality and yield reduction. Do not apply when weather conditions favor drift from target area.

Do not use the same spray equipment for other purposes unless thoroughly cleaned. Do not contaminate irrigation ditches or water used for domestic or irrigation purposes especially in areas where grapes, cotton, tomatoes or other susceptible plants are grown. Do not use in a greenhouse.

Do not graze dairy animals on treated areas within 6 weeks after application. Do not graze meat animals on treated areas within two weeks of slaughter.

Do not apply when a temperature air inversion exists. Such a condition is characterized by little or no air movement and an increase in air temperature with an increase in height. In humid regions a fog or mist may form. An inversion may be detected by producing a smoke column and checking for a layering effect. If questions exist pertaining to the existence of an inversion consult with local weather services before making an application.

Use coarse sprays to minimize drift. Do not apply with hollow cone-type insecticide or other nozzles that produce fine spray droplets. Do not apply when any wind is blowing toward susceptible crops or valuable plants. Drift from aerial application may be reduced by (1) applying as near to the target as possible in order to obtain coverage, (2) by using 20 pounds pressure or less at the nozzle tips, (3) by using nozzles which produce a coarse spray pattern, (4) by spraying only when the wind velocity is less than 5 miles per hour, (5) by applying sprays at low pressure and high volume, (6) by applying 5 or more gallons of spray per acre.

Drift from ground application may be reduced by (1) keeping the spray as near to the target as possible in order to obtain complete coverage, (2) by applying 25 gallons or more of spray per acre, (3) by using no more than 20 pounds of pressure at the nozzle tips, (4) by using nozzles which produce a coarse spray pattern, and (5) by applying sprays at low pressure and high volume.

Under very high temperatures vapors from this product may injure susceptible plants in the immediate vicinity.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Do not store near other pesticides, seeds, fertilizers, food or feedstuffs. Open dumping is prohibited. Do not reuse container. Do not burn.

Pesticide, spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

Triple rinse container (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill or bury in a safe place.

Consult federal, state or local disposal authorities for approved alternative procedures.

Local conditions may affect the use of herbicides. Consult your State Agriculture Experiment Station, Farm Advisors, or Extension Weed Specialists for advice in selecting treatment from this label to best fit local conditions.

Be sure that use of this product conforms to all applicable laws, rules and regulations. Certain states have restrictions pertaining to application distances from susceptible crops. The applicator should become familiar with these laws, rules or regulations and follow them exactly. Apply this product only as specified on this label.
