FOR ADDITIONAL PRECAUTIONARY STATEMENTS: See Inside Label

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: If patient is conscious and alert, give 2-3 glasses of water to drink. Do not induce vomiting. Get medical attention.

IF ON SKIN: Wash skin with plenty of soap and water, if available, while removing contaminated clothing and shoes. Wash clothing separately before reuse.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes. Get medical attention.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration. Administer oxygen if necessary. Get medical attention.

NOTE TO PHYSICIAN: No specific antidote is available. All treatments should be based upon observed signs and symptoms of distress in the patient. Overexposure to materials other than this product may have occurred.

This product contains petroleum distillates. If large amounts (greater than 1 ml/kg body weight) of the product have been ingested, the stomach should be evacuated by gastric intubation with the aid of a cuffed endotracheal tube to prevent aspiration of petroleum distillates. After removal of stomach contents, wash stomach by instilling 30-50 grams of activated charcoal in 3-4 ounces of water through the stomach tube and again remove stomach contents. Avoid oily laxatives.

PRECAUTIONARY STATEMENTS

CAUTION

HAZARD TO HUMANS AND DOMESTIC ANIMALS

Harmful if swallowed or inhaled. Avoid breathing spray mist. Avoid contact with skin, eyes or clothing. In case of contact, immediately flush skin or eyes with plenty of water. Get medical attention if irritation persists. Contains petroleum distillates.

When mixing, loading, or applying this product, wear long-sleeved shirt, long pants, socks, shoes and chemical-resistant gloves.

After using this product, rinse gloves before removing, remove clothing and launder separately before reuse, and promptly and thoroughly wash hands and exposed skin with soap and water. Remove saturated clothing as soon as possible and launder separately.

Note: (1) For containers over 1 gallon, but less than 5 gallons, persons engaged in pouring of this product must also wear chemical-resistant apron. (2) For containers of 5 gallons or more, mechanical transfer system (probe and pump) must be used for transferring the contents of the container. If the contents of a non-refillable pesticide container are emptied, the probe must be removed before removal.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply when weather conditions favor drift from treated areas. Do not contaminate any body of water by washing of spray equipment or disposal of waste.

395

USE PRECAUTIONS

Avoid spray drift to susceptible plants such as cotton, beans, tomatoes, tobacco, and ornamentals as this product may cause injury. Coarse sprays are less likely to drift. Do not use same spray equipment for other purposes. Under very high temperature of use, vapors from this product may injure susceptible plants in the immediate vicinity. Do not contaminate water used for irrigation or domestic purposes. Do not use in or near a greenhouse.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label before using this product.

Do not allow people (other than applicator) or pets to handle or be near treated areas until spray or dust has settled.

STORAGE AND DISPOSAL

STORAGE

Do not store near fertilizers, seeds, insecticides, or fungicides.

PESTICIDE AND CONTAINER DISPOSAL

Do not reuse container. Securely wrap original container in several layers of newspaper and discard in trash.

FOLIAGE SPRAY: Spray WEEDONE® SUPER BK-32 Woody Plant Herbicide after brush foliage is fully developed in the spring until plants begin to go dormant in the fall. All leaves, stems, and suckers should be wet thoroughly to ground line. Some regrowth may be expected on resistant species such as ash, blackberry, maple, oak, and persimmon. Treat any regrowth the following season.

BASAL SPRAY: Wet the lower 18 inches of all stems until material runs down in all sides and collects around the root collar at ground line. This treatment can be applied in any season.

STUMP SPRAY: To prevent stumps from resprouting, spray the entire stump, particularly bark and exposed roots. Spray stumps any time during the year, but as soon as possible after trees are cut. A thorough drenching is essential for complete control.

CONCENTRATE STUMP TREATMENT: For small (up to 3 inch diameter) stems, cut them as close to the ground as possible and apply undiluted WEEDONE® SUPER BK-32 directly from the can to the surface of the freshly cut stump.

FRILL TREATMENT: This method is recommended for trees 5 to 6 inches in diameter and larger. Make frill by using an axe to cut overlapping notches in a continuous ring around the trunk near its base. Cut through the bark but do not remove chips. Treat freshly cut frills at any time during the year with 1 pint of WEEDONE® SUPER BK-32 Herbicide per 2 gallons of water. Pour in as much of this mixture as the frill will hold without wasting chemical.

AMOUNT TO USE (Knapsack Sprayers) Mix thoroughly before using.

METHOD	WEEDONE® SUPER BK-32	DILUENT
Foliage spray	4 Ounces (1/2 cup)	2 1/2 Gals. Water
	1/2 Pint	5 Gals. Water
Basal spray	1 Pint	2 1/2 Gals. Diesel Oil or Kerosene
Stump spray	1 Pint	2 1/2 Gals. Diesel Oil or Kerosene

4 of 5

WEEDONE SUPER BK-32 Woody Plant Herbicide 's effective for controlling:

- | | | |
|-----------------|-------------------|------------------|
| alder | dogwood | poplar |
| ash* | elderberry | raspberry |
| aspen | elms | salmonberry |
| bear clover | fir | sassafras |
| birch | gooseberry | serviceberry |
| blackberry | honeysuckle | spicebush |
| black cherry | interior live oak | spruce |
| black locust | kudzuvine | sumac |
| black oak | sassafras | sweetgum |
| boxelder | madrone | sycamore |
| buckbrush | manzanita | tanoak |
| canyon live oak | maples* | tulip poplar |
| ceanothus | oaks | virginia creeper |
| chamise | osage orange | wild cherry |
| chinquapin | persimmon* | wild grape |
| coffeeberry | pine | wild rose |
| currant | poison ivy | willow |
| dewberry | poison oak | yerba santa |

(And many other similar species)

*Controlled by stump or basal treatment only.

WEEDONE® SUPER BK-32 Woody Plant Herbicide is not recommended for weed control in crops.

When diluting, the material must be mixed thoroughly before using. If the material is allowed to stand for any length of time after dilution, it should be stirred again before using.
