NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 264-416."
 - b. Add the accepted common name - Dicamba - to the ingredient statement declaration preceding the chemical name for this active ingredient.
 - c. Under HAZARD TO HUMANS AND DOMESTIC ANIMALS, add: Do not breathe vapors.
 - d. Under ENVIRONMENTAL HAZARDS, change the first paragraph to read:

Do not discharge effluent containing this product directly into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an

- e. Under pesticide disposal, delete the reference to spray mixture. In the warranty, delete references to . . . and of residues . . . and . . . upon reports of field experience These phrases are not appropriate for a manufacturing concentrate label.

As a condition of registration, you must submit a repeated acute inhalation study for this concentrate using at least three dose levels with five animals per sex per dose. LC_{50} values must be determined for males and females individually. The submitted study by Toxigenics (Accession Number 255218) is supplemental material only since an LC_{50} could not be determined. The repeat study is required within six months of the date of registration.

3. Submit one (1) copy of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
