

WHY SUPERCHLORINATE: Some algae spores have the capability of withstanding regular dosages of chlorine and tend to become immune to a small dose.

A large dosage of chlorine — Super Chlorination — **SwimChem Super Chlor Plus** will rid the pool water of these algae spores.

WHEN TO SUPERCHLORINATE: Regardless of the type of chlorine that you use in your pool, it is advisable to Super Chlorinate with **SwimChem Super Chlor Plus** at least every other week in warm weather. When the daily temperature is 95° or above you should Super Chlorinate with **SwimChem Super Chlor Plus** every week. Add **SwimChem Super Chlor Plus** when pool is not in use and do not swim in the pool until the chlorine residual has dropped below 2.0 ppm, as determined by a suitable test kit.

HOW TO SUPER CHLORINATE: Use a standard, clean, dry plastic measuring cup to scatter **SwimChem Super Chlor Plus** in deep end of pool. Rinse the measuring cup thoroughly before using for other purposes. Super chlorinate with 1 cup, which holds 9 oz. of **SwimChem Super Chlor Plus** by weight, per 10,000 gallons of pool water indicated in chart below.

POOL SIZE	APPROX. GALLONS	SUPER CHLOR PLUS AMOUNT	
12 x 24	10,000	1 Cup	(9 oz. by wt.)
14 x 28	17,500	1 3/4 Cups	(15 3/4 oz. by wt.)
15 x 30	20,000	2 Cups	(18 oz. by wt.)
18 x 36	27,500	2 3/4 Cups	(24 3/4 oz. by wt.)
20 x 40	32,500	3 1/4 Cups	(29 1/4 oz. by wt.)

- When used in plastic or vinyl lined pools predissolve **SwimChem Super Chlor Plus** at the rate of 1 Cup (9 ounces by wt.) per gallon in a plastic pail before adding to the pool.
- **SwimChem Super Chlor Plus** contains no stabilizers and should be used for super chlorination only.
- For use in swimming pools only.

DANGER

May be fatal or harmful if swallowed.

May cause chemical burns. Do not get into eyes. Avoid contact with skin or clothing. In case of contact, wash skin with water and if irritation persists, get medical attention; for eyes, flush with plenty of water for at least 15 minutes and GET MEDICAL ATTENTION!

FIRST AID: INTERNAL — Give milk, water, or egg whites. Call physician immediately.

DANGER

STRONG OXIDIZING MATERIAL — Contact with organic material or high temperature may cause decomposition and resulting evolution of chlorine and other toxic gases.

STORE IN A COOL, DRY, WELL-VENTILATED AREA, AWAY FROM FLAMMABLES. Contact with heat, moisture, foreign materials, or contamination from any source may result in fire. Clothing and/or vegetation contaminated by the concentrated dry chlorine product are dangerously flammable. Remove and wash contaminated clothing promptly. Flush generously any contaminated vegetation.

DO NOT RE-USE EMPTY CONTAINER. Thoroughly rinse empty container before disposing of it.

Add material only to water. May cause fire or explosion if mixed with other chemicals.

This product is toxic to fish. Treated pool water should not be discharged where it will drain into lakes, streams, ponds, or public water.

Apply this product only as specified on this label.
