Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. This product is toxic to fish; keep out of lakes, streams or ponds. Apply this product only as specified on this label.

DRIONE is a Reg. Trademark of FMC Corporation.

NET WEIGHT: 2 OZ.

This product is a finely divided powder which combines the flushing and killing powers of pyrethrins and piperonyl butoxide with the dehydrative principle of thermally attrited hydrogel. It is relatively odorless and non-staining and may be used in accordance with directions in homes, restaurants, stores, hotels, offices, plants and warehouses.

DIRECTIONS FOR USE

To control crawling insect life as ants, cockroaches, silverfish, and fleas in animal quarters, distribute Drione at rate of 2 ounces per 100 square feet of surface area. Apply a continuous visible film underneath and behind stoves, refrigerators and appliances. Treat on, around and behind moulding, shelving, baseboards, pipe openings, cracks, crevices and other areas where insects may hide. For severe infestations apply Drione behind cabinets and walls, in crawl spaces and attics, at the rate of 16 ounces per 1000 square feet of surface area. Repeat treatment as necessary.

BED BUGS: Take bed apart. Dust into joints and crevices of hollow cast iron square or round tubing, see that the interior of framework is well dusted. Mattress should be dusted, especially tufts, folds and edges. Picture frame moldings and all cracks and crevices in the room should be treated.

FLEAS - Dogs and Cats: Liberally apply powder to the animal, rubbing thoroughly to the skin. Begin with the neck and include the underbody legs, feet and the base of the tail. Repeat as necessary. Surfaces of kennels should be dusted at the rate of one ounce per 50 square feet. Heavily infested lawns, basements and crawl spaces should be dusted at the rate of 16 ounces per 1000 square feet. Repeat as necessary.
