LABEL BACK

WIPE Fly Protectant is specially formulated for use on valued race horses and fine show horses, but will prove of equal value to pleasure riders seeking effective, long lasting fly protection for their animals. Actually helps in the removal of dirt and dandruff. Imparts a high sheen to the hair when brushed out. And, it is pleasant to use. Has a light, bright, pleasing fragrance.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING

Before applying Wipe to your horse, brush him down thoroughly to remove loose dust and dirt.

Moisten (but do not soak) a folded piece of Turkish toweling (approximately 12" x 15") or an Applicator Mitt with Wipe. Rub briskly against the growth direction of the hair. Give special attention tho the shanks, legs, shoulders, neck and facial areas of the horse where flies tend to cause the greatest problems. Add more Wipe to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse). Groom with a brush.

To kill attached ticks, dab Wipe directly on the tick with a saturated cloth.

For use with Farnam Repellent strips: Saturate strips with Wipe, allowing excess Wipe to drain from strip prior to use. See Farnam Repellent Strip label for proper attachment to horse.

A FEW IMPORTANT POINTS TO REMEMBER:

In order to keep the applicator moist and insure proper coverage

of Wipe, it is recommended that the cloth used be kept in an airtight container (a tin can will do) between uses.

Regular daily applications of Wipe may build up repellency. Because of this, its effectiveness may be increased enabling a reduction in the amount of Wipe applied on a daily basis.

To provide maximum effectiveness, the best time for application is early morning.

Climatic conditions such as temperature and humidity, and cleanliness of the horse's coat will affect the amount of repellent required to do an effective job. Because of this, you may have to experiment with the amount of Wipe applied in order to arrive at the optimum amount needed.

CAUTIONS

Harmful if swallowed. Keep out of reach of children. Wash hands thoroughly after using.

Use only Turkish toweling or Wipe Applicator Mitt (not a substitute material) to apply Wipe.

Avoid using excessive amounts of Wipe on your horse. Do not soak the skin

Do not apply to horses to be used for food.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place.

Pesticide Disposal: Securely wrap original container in several layers of newspaper and discard in trash.

Container Disposal: Do not reuse empty can. Wrap can and put in trash.
