## UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

WASHINGTON, D.C. 20460

OFFICE OF  
PREVENTION, PESTICIDES  
AND TOXIC SUBSTANCES

FEB 25 2009

Ms. Cheryl Purcell  
Farnam Companies, Inc.  
301 W. Osborn Road  
Phoenix, AZ 85013

Subject: Amended Reregistration Label For: MGK 326  
EPA Registration No. 270-37

Dear Ms. Purcell:

The Agency in accordance with the Federal Fungicide and Rodenticide Act as Amended (FIFRA) has completed reviewing all of the information submitted with your application to support the reregistration of the aforementioned product in connection the **MGK 326 RED**, and have concluded that your submission is acceptable.

The Agency is in the process of developing and improving the current Efficacy Assessment Guidelines for repellent products. The Agency intends to defer the determination of any related efficacy data requirements supporting the claims that may appear on this label until these Efficacy Assessment Guidelines are complete. When the guidelines are finalized, the Agency expects to issue a Data Call-In to address the revised guidelines to all registrants with registrations for personal repellent products that have not previously submitted efficacy data sufficiently consistent with the revised guidelines.

**NOTE:** This product is not being re-registered under FIFRA Sec. 4(g) at this time.

You must submit two copies of the final printed label revised in accordance with the comments listed above before the product is released for shipment under this label. If you have any questions, you may contact Samantha Hulkower at (703)-603-0683 or [Hulkower.Samantha@epa.gov](mailto:Hulkower.Samantha@epa.gov).

A copy of your label stamped "Accepted" is enclosed for your records.

Sincerely,

A handwritten signature in black ink, which appears to read "Richard J. Gebken", is written over a horizontal line.

Richard J. Gebken, Product Manager (10)  
Registration Division, Insecticide Branch

EPA Reg No.: 270-37  
Decision: 356448

[CITRONELLA SCENTED]

FARNAM WIPE  
ORIGINAL FORMULA  
FLY PROTECTANT

KILLS TICKS TOO

Just wipe it on Horses and Ponies. Effective for hours!

(After long-standing non-use, mix contents by inverting several times)

IF IN EYES:	<ul style="list-style-type: none"> <li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li> <li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
IF YOU SUSPECT A REACTION TO THIS PRODUCT:	<ul style="list-style-type: none"> <li>• Discontinue use.</li> <li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li> <li>• Call a poison control center or doctor for treatment advice.</li> </ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-234-2269 for emergency medical treatment information.	
NOTE TO PHYSICIAN	
Contains petroleum distillate. Vomiting may cause aspiration pneumonia.	

## ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use on horses or foals intended for slaughter.

**SHAKE WELL BEFORE USING:** Before applying WIPE to your horse, brush him down thoroughly to remove loose dust and dirt. Moisten, but do not soak, a folded piece of Turkish toweling (approximately 12" x 15") or an applicator mitt with WIPE. Rub briskly against the growth direction of the hair. Give special attention to the shanks, legs, shoulders, neck and facial areas of the horse where flies tend to cause the greatest problems. Add more WIPE to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse). Groom with a brush. To kill attached ticks, dab WIPE directly on the tick with a saturated cloth. Do not apply over cuts, wounds, or irritated skin. Do not apply near eyes and mouth. Apply sparingly around ears.

## STORAGE AND DISPOSAL

**STORAGE:** Store in a cool, dry place

**DISPOSAL:** If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

## A FEW IMPORTANT POINTS TO REMEMBER:

- To keep applicator moist, keep in an airtight container between uses.
- Daily applications of Wipe may build up repellency, allowing a reduction in the amount used in subsequent applications.
- Apply in early morning for maximum efficacy.
- The amount of Wipe needed depends on temperature, humidity, and cleanliness of the horse's coat.
- Use only Turkish toweling or applicator mitt (not a substitute material) to apply WIPE. Avoid using excessive amounts of WIPE on your horse. Do not soak the skin.
