## Mosquito and Gnat Repellent

Just wipe it on Horses, Ponies, Dogs.  
Repels Mosquitoes, Gnats, Chiggers and Ticks.  
Plus Stable Flies, House Flies and Horn Flies.

ACCEPTED  
270-49  
OCT 21 1971

Mosquito & Gnat Repellent is specially formulated to repel mosquitoes, gnats, chiggers, and ticks from horses, ponies and dogs. Also repels stable flies, house flies and horn flies.

### DIRECTIONS FOR USE

**FOR HORSES, PONIES & DOGS:** Before application, brush the animal to remove loose dust, dirt, and debris. Moisten a folded piece of turkish toweling with the repellent. Then rub the toweling briskly against the growth of hair, giving special attention to shanks, legs, shoulders, and facial areas of the animal. Add more repellent as needed to apply approximately one to two ounces daily per animal. For ticks and chiggers make certain the legs are treated most thoroughly with the repellent.

- To make sure the proper amount of repellent is transferred to the animal, we recommend that cloth used to apply the repellent be kept in an air tight container (such as a tin can) between periods of daily use. This will insure its moistness at the start of daily application.
- Repeated daily applications of repellent may build up repellency on the animal. Thus its effectiveness may be increased, and gradually enable you to reduce the amount applied daily.
- Amount of repellent required to do an effective job will vary according to season, temperature, climate, humidity and cleanliness of animal.

**CAUTION:** Harmful if swallowed, avoid contact with eyes and lips. Keep out of reach of children.

**WARNING: FLAMMABLE! KEEP AWAY FROM HEAT OR OPEN FLAME.**

**ACTIVE INGREDIENTS:** N,N-Diethyl-m-toluamide, 5.310%; cyfluthrin, 4.27%; Permethrin, 2.00%; D-phenothrin, 1.00%; 2-Ethoxy-1,2-dimethyl-3-isopropyl-4-methyl-5-pyridylmethylcarbamate, 0.25%; INERT INGREDIENTS: 87.17%.
