FARNAM

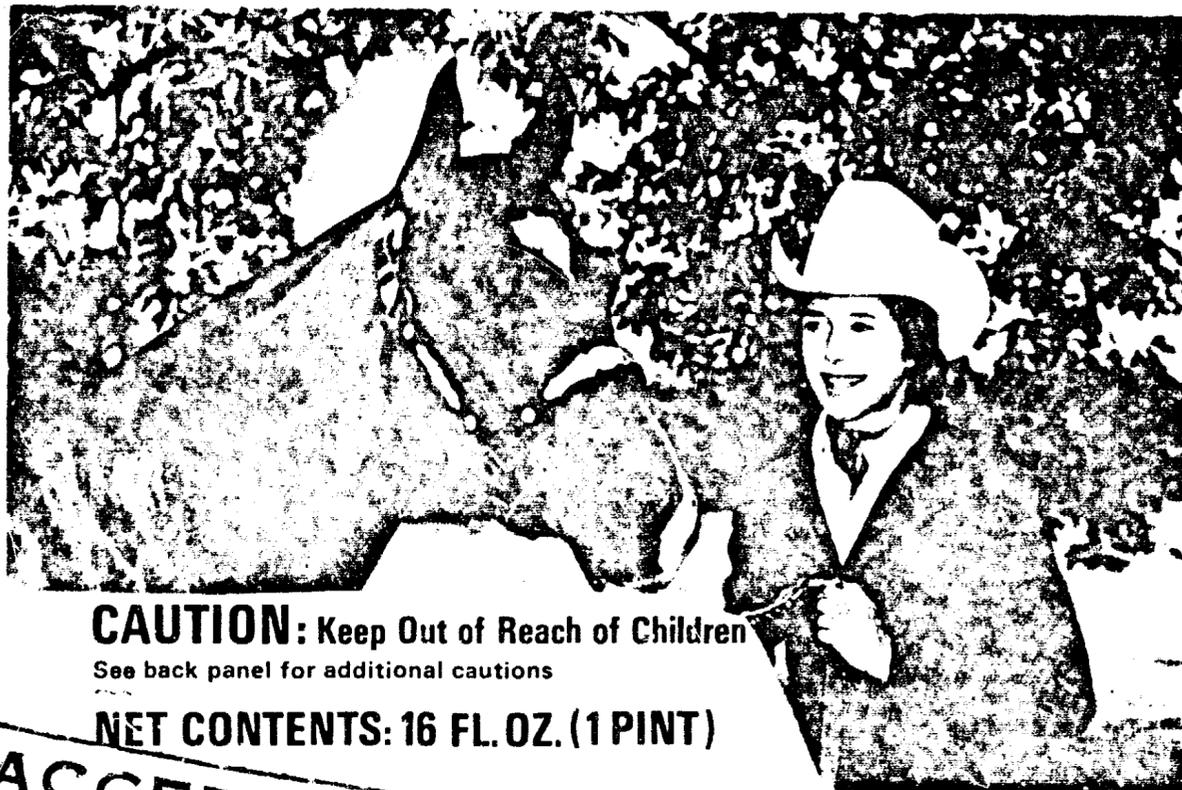

For use on horses and ponies

SUPER-SHEEN WIPE

WIPE-ON FLY REPELLENT AND COAT BRIGHTENER

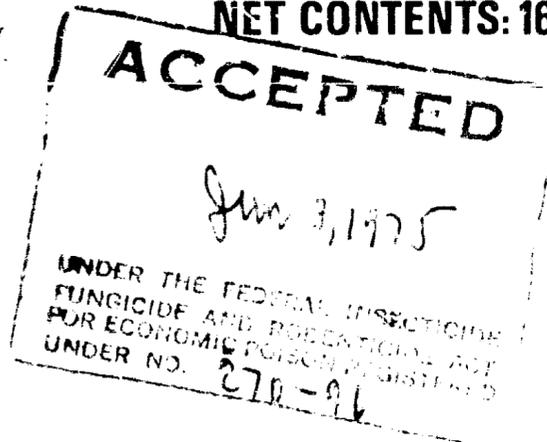

Repels Horse Flies, House Flies, Stable Flies, Deer Flies, Gnats, Ticks and Mosquitoes. Also kills insects on contact. Repels insects for up to 24 hours. Provides long lasting sheen to the hair.

CAUTION: Keep Out of Reach of Children

See back panel for additional cautions

NET CONTENTS: 16 FL. OZ. (1 PINT)

SUPER-SHEEN WIPE is a specially formulated Wipe On Insect Repellent containing absorbable lanolin developed for use on show and pleasure horses where appearance is highly important. When used as directed **SUPER-SHEEN WIPE** will provide up to 24 hours of effective protection against certain insects as well as impart and maintain a bright, healthy sheen to the hair.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING

Before applying **SUPER-SHEEN WIPE** to your horse, brush him down thoroughly to remove loose dust and dirt.

Moisten (but do not soak) a folded piece of Turkish toweling (approximately 12" x 15") or Applicator Mitt with **SUPER-SHEEN WIPE**. Rub briskly against the growth direction of hair. Give special attention to the shanks, legs, shoulders, neck and facial areas of the horse where flies tend to cause the greatest problems. Add more **SUPER-SHEEN WIPE** to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse). Groom with a brush.

To kill attached ticks, dab **SUPER-SHEEN WIPE** directly on the tick with a saturated cloth.

A FEW IMPORTANT POINTS TO REMEMBER:

- In order to keep the applicator moist and insure proper coverage of **SUPER-SHEEN WIPE** it is recommended that the cloth used be kept in an airtight container (a tin can will do) between uses.
- Regular daily applications of **SUPER-SHEEN WIPE** may build up repellency. Because of this, its effectiveness may be increased enabling a reduction in the amount of **SUPER-SHEEN WIPE** applied on a daily basis.
- To provide maximum effectiveness, the best time for application is early morning.
- Climatic conditions such as temperature and humidity, and general cleanliness of the horse's coat will affect the amount of repellent required to do an effective job. Because of this, you may have to experiment with the amount of **SUPER-SHEEN WIPE** applied in order to arrive at the optimum amount needed.

CAUTIONS:

- Harmful if swallowed. Keep out of reach of children. Wash hands thoroughly after using.
- Use only Turkish toweling or Wipe Applicator Mitt (not a substitute material) to apply **SUPER-SHEEN WIPE**.
- Avoid using excessive amounts of **SUPER-SHEEN WIPE** on your horse. Do not soak the skin!
- Do not store or pour near an open flame, or use while smoking.
- Do not reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place away from water supplies.
- Do not apply to horses to be used for food.

ACTIVE INGREDIENTS:

Pyrethrins 0.20% Piperonyl Butoxide Technical 0.50% (equivalent to 0.40% (Butylcarbityl) 6-Propylpiperonyl Ether and 10% of related compounds); Di-n-propyl Isocinchomeronate 1.00% Butoxypolypropylene Glycol 20.00% Isopropyl Lanolin Ester 1.00%

INERT INGREDIENTS: 77.30%

EPA REG. NO. 270-96-AA EPA EST. NO. 34734-1A-1
