LABEL 1

FARNAM (After long-standing non-
WIFE II use, mix contents by
FLY PROTECTANT inverting several times)

Just wipe it on Horses and Ponies. Repels Horse Flies, House Flies, Stable Flies, Deer Flies, Face Flies, Horn Flies, Gnats, Fleas, Ticks, and Mosquitoes. Also kills them on contact.

Effective for hours!

Kills Ticks Too!

ACTIVE INGREDIENTS

Tetramethrin [(1-cyclohexene-1, 2-dicarbomixide) methyl	
2,2,-dimethyl-3-(2-methylpropenyl) cyclopropane carbonylate]	0.210%
*3-Phenoxybenzyl d-cis and trans**	
2,2-dimethyl-3-(2-methyl propenyl) cyclopropanecarboxylate	0.096%
Other isomers	0.004%
Di-n-propyl isocinchomeronate	1.000%
Butoxypolypropylene glycol	20.000%
INERT INGREDIENTS	78.690%

* d-(cis,trans)phenothrin

** cis/trans isomer ratio: max. 25% (+ or -) cis
min. 75% (+ or -) trans

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautions

NET CONTENTS: 32 FL. OZ. (1 Quart)

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed. Keep out of reach of children. Wash hands thoroughly after using. Use only Turkish toweling or WIPE Applicator Mitt (not a substitute material) to apply WIPE II. Avoid using excessive amount of WIPE II on your horse. Do not soak the skin. Do not use on horses intended for human consumption. Do not store or pour near an open flame, or use while smoking.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning or disposal of equipment.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling

FOR USE ONLY ON SHOW, RACE, WORK OR PLEASURE HORSES

WIPE II Fly Protectant is specially formulated for use on valued race horses and fine show horses, but will prove of equal value to pleasure riders seeking effective, long-lasting fly protection for their animals. Actually helps in the removal of dirt and dandruff. Imparts a high sheen to the hair when brushed out. And, it is pleasant to use. Has a light, bright, pleasing fragrance.

SHAKE WELL BEFORE USING

Before applying WIPE II to your horse, brush him down thoroughly to remove loose dust and dirt.

Moisten (but do not soak) a folded piece of Turkish toweling (approximately 12" x 15") or an Applicator Mitt with WIPE II. Rub briskly against the growth direction of the hair. Give special attention to the shanks, legs, shoulders, neck and facial areas of the horse where flies tend to cause the greatest problems. Add more WIPE II to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse). Groom with a brush.

To kill attached ticks, dab WIPE II directly on the tick with a saturated cloth.

A FEW IMPORTANT POINTS TO REMEMBER:

In order to keep the applicator moist and ensure proper coverage of WIPE II it is recommended that the cloth used be kept in an airtight container (a tin can will do) between uses.

Regular daily applications of WIPE II may build-up repellency. Because of this, its effectiveness may be increased enabling a reduction in the amount of WIPE II applied on a daily basis.

To provide maximum effectiveness, the best time for application is early morning.

Climatic conditions such as temperature and humidity, and cleanliness of the horse's coat will affect the amount of repellent required to do an effective job. Because of this, you may have to experiment with the amount of WIPE II applied in order to arrive at the optimum amount needed.

STORAGE AND DISPOSAL

Do not store near heat or open flame. Do not reuse empty container. Destroy it by perforating or crushing, wrap and throw in trash.
