 House Flies, Stable Flies, Deer Flies, Gnats and Mosquitoes.

Also kills them on contact. Effective for hours!

ACTIVE INGREDIENTS:

Pyrethrins	0.01%
Piperonyl Butoxide Technical*	0.50%
2,2-Dichlorovinyl dimethyl phosphate	0.50%
Related Compounds	0.04%
INERT INGREDIENTS	98.95%

* Equivalent to 0.40% (butylcarbityl) (6-Propylpiperonyl) ether and
 0.10% of related compounds

KILLS TICK TOO!

KEEP OUT OF REACH OF CHILDREN

CAUTION

See back panel for additional precautionary statements

NET CONTENTS: 32 FL. OZ (1 Quart)

Not Reviewed. Registrant claims to be in accordance with
 Reregistration of Pesticide Product Guidance for Phase 2
 Response, Page 2.12, Active to Inert Change in Status.

BACK LABEL

WIPE V Fly Protectant is specially formulated for use on valued race horses and fine show horses, but will prove of equal value to pleasure riders seeking effective fly protection for their animals. Actually helps in the removal of dirt and dandruff. Imparts a high sheen to the hair when brushed out.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USING

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Before applying WIPE V to your horse, brush him down thoroughly to remove loose dust and dirt.

Moisten (but do not soak) a folded piece of Turkish toweling (approximately 12" x 15") or an Applicator Mitt with WIPE V. Rub briskly against the growth direction of the hair. Give special attention to the shanks, legs, shoulders, neck and facial areas of the horse where flies tend to cause the greatest problems. Add more WIPE V to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse - do not exceed 2 ounces per animal). Avoid using excessive amounts. Do not soak the skin. Groom with a brush.

A FEW IMPORTANT POINTS TO REMEMBER:

- * In order to keep the applicator moist and ensure proper coverage of WIPE V, it is recommended that the cloth used be kept in an airtight container (a tin can will do) between uses.

BACK LABEL (Cont)

- * Regular daily applications of WIPE V may build up repellency. Because of this, its effectiveness may be increased enabling a reduction in the amount of WIPE V applied on a daily basis.
- * To provide maximum effectiveness, the best time for application is early morning.
- * Climatic conditions such as temperature and humidity, and cleanliness of the horse's coat will affect the amount of repellent required to do an effective job. Because of this, you may have to experiment with the amount of WIPE V applied in order to arrive at the optimum amount needed.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

For animal use only. Do not use on humans. Keep out of reach of children. Harmful if swallowed, inhaled, or absorbed through the skin. Wash hands thoroughly after using. Do not use on horses intended for human consumption. Avoid contamination of food or feed. Do not use while smoking.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING unless other treatment is not available. Vomiting may cause aspiration pneumonia. If it is necessary to induce vomiting, give victim one or two glasses of water and insert finger in back of throat. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth to an unconscious person.

4/4
BACK LABEL (Cont)

- IF INHALED: Remove victim to fresh air. Apply respiration if indicated.
IF ON SKIN: Wash contaminated skin with soap and water.
IF IN EYES: Flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

ENVIRONMENTAL HAZARDS

Keep out of lakes, ponds or streams. Do not contaminate water by cleaning of equipment or disposal of wastes.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.
