line show horses. It
effective long-lasting
removal of dirt and d
out. And it is please

DIRECTIONS FOR

It is a violation of Fed
its labeling

STO

Before applying Wipe Fly Protectant, remove loose dust and dirt by toweling (approximately 10 strokes) briskly against the girth, neck, shanks, legs, shoulder, and tail. Then apply approximately 1 oz. (the variance is 1/2 oz. on ponies or 2 oz. on horses) to the skin. Groom with a brush attached to a few inches of leather strap.

A FEW IMPORTANT THINGS TO REMEMBER:

• Do not apply to sensitive areas such as the eyes, nostrils, ears, and genitalia.

• Do not apply to the skin of children under 12 years of age.

• Do not apply to the skin of pregnant or nursing mothers.

• Do not apply to the skin of persons with known allergies to any of the ingredients.

• Do not apply to the skin of persons with known allergies to any of the ingredients.

PRECAUTIONARY STATEMENT'S HAZARDS TO HUMANS & DOMESTIC ANIMALS **CAUTION**

Keep out of reach of children. If swallowed, get medical help or call a poison control center right away. If in eyes, flush with water for at least 15 minutes. If on skin, wash with soap and water. If on clothes, wash before wearing again.

ENVIRONMENTAL HAZARDS

Wipe P Fly Protectant is especially formulated for use on valued race horses and fine show horses, but will prove of equal value to pleasure riders seeking effective long-lasting fly protection for their barn animals. Actually helps in the removal of dirt and dandruff. Imparts a high sheen to the hair when brushed out. And it is pleasant to use. Has a light, bright, pleasing fragrance.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING

If it is a violation of state, local law to use this product in a manner inconsistent with its labeling

STORAGE & DISPOSAL

Before applying Wipe P to your horse, brush him down thoroughly to remove loose dust and dirt. Moisten (but do not soak) a folded piece of Turkish toweling (approximately 12" x 15") for an applicator Mitt with Wipe P. Rub briskly against the growth direction of the hair. Give special attention to the shanks, legs, shoulders, neck and face areas of the horse where flies tend to cause the greatest problems. Add more Wipe P to the applicator as needed. Applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse but should not exceed 1 oz. on ponies or 2 oz. on horses). Avoid using excessive amounts. Do not soak the skin. Groom with a brush.

To kill attached ticks, dab Wipe P directly on the ticks with a saturated cloth.

A FEW IMPORTANT POINTS TO REMEMBER:

- Do not apply to wet or damp skin.
- Do not apply to sensitive areas such as the eyes, nostrils, ears, genitalia, rectum, etc.
- Do not apply to the skin of children under 2 years of age.
- Do not apply to the skin of pregnant or nursing women.
- Do not apply to the skin of persons with known hypersensitivity to pyrethroids.
- Do not apply to the skin of persons with known hypersensitivity to piperonyl butoxide.
- Do not apply to the skin of persons with known hypersensitivity to benzyl alcohol.
- Do not apply to the skin of persons with known hypersensitivity to propylene glycol.
- Do not apply to the skin of persons with known hypersensitivity to sorbitol.
- Do not apply to the skin of persons with known hypersensitivity to glycerin.
- Do not apply to the skin of persons with known hypersensitivity to water.
- Do not apply to the skin of persons with known hypersensitivity to propylparaben.
- Do not apply to the skin of persons with known hypersensitivity to ethylparaben.
- Do not apply to the skin of persons with known hypersensitivity to benzyl alcohol.
