See back panel for additional precautionary statements

NET WEIGHT 12 OZ. (340g)

**USE ONLY WHEN AREA TO
BE TREATED IS VACATED BY HUMANS AND PETS**

Use one canister for each 12,000 cu ft of unobstructed area. Use additional units for remote rooms or where free flow of mist is not assured.

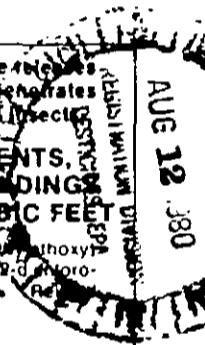

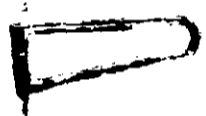

PREPARATION:
Cover asphalt tile, waxed wood floors and furniture. Open all cabinets, closets and interior doors to areas to be treated. Remove pets and cover or remove fish tanks and bowls. Cover exposed foods, dishes and food handling equipment. Close outside doors and windows. Turn off fans and air conditioning. Extinguish all open flames except pilot light.

DIRECTIONS:
In violation of Federal law to use this product in a manner inconsistent with its labeling.
1. Fog-A-Bug II on table, chair or stand at least 3 feet from pilot light. Place several layers of newspaper under canister to prevent marring of surface. Remove canister cover. Hold can at arms length, aiming top of can away from face. Push lever down firmly until it locks - this will start fogging action. Set fogger in upright position on newspaper and leave the building at once, closing exterior door.

Leave undisturbed for two hours, then open exterior doors and windows and allow to air for 30 minutes before reoccupying area.
