User Safety Requirements

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

Users should remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Keep out of lakes, streams and ponds. Do not contaminate water when disposing of equipment wash water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store tightly closed in cool, dry place inaccessible to children and pets.

PESTICIDE DISPOSAL: Pesticide that cannot be used according to label instructions must be disposed of according to Federal, State or local procedures under the Resource Conservation and Recovery Act.

GENERAL INSTRUCTIONS AND INFORMATION

Feed the recommended dosage to each horse separately to make certain he receives his full portion. This product should be fed top dressed on grain or mixed with the horse's total ration to provide 70 mg of Rabon® per 100 lbs. of body weight. For an occasional finicky eater who does not accept new feeds readily, mix VITA PLUS® WITH EQUITROL® with sweet feed or grain ration.

Begin feeding VITA PLUS® WITH EQUITROL® early in the spring before flies begin to appear and continue feeding throughout the summer and into the fall until cold weather restricts fly activity.

VITA PLUS® WITH EQUITROL® Feed-Thru Fly Control prevents the development of House Flies and Stable Flies in the manure of treated horses but is not effective against existing adult flies. In some cases, supplemental fly control measures may be needed in and around paddocks and buildings to control adult House Flies and Stable Flies which can breed not only in manure but in other decaying vegetable matter or silage on premises.

In order to achieve optimum fly control, VITA PLUS® WITH EQUITROL® should be used in conjunction with other good management and sanitation practices.

GENERAL PRECAUTIONS AND RESTRICTIONS

DO NOT USE ON HORSES INTENDED FOR SLAUGHTER

CAUTION: Follow label directions. The addition to feed of higher levels of this premix containing Selenium is not permitted.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift.

Only protected handlers may be in the area during application.
