FARNAM DIP QUIK CONCENTRATE

The insecticidal ingredients in Farnam Dip-Quik Concentrate are highly and rapidly effective against insects. Dilute with water at recommended levels as a fast, effective dip for animals or in kennels as a space, surface or fogging spray.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dilutions of this concentrate should be made shortly before use in the quantity needed for the individual application. Water dilutions should not be kept for future use.

To Control Insects on Animals: Sponge Bath or Dip: Dilute this concentrate at a rate of 1 fluid ounce in 23 fluid ounces of water (2 tablespoons of concentrate in 2 3/4 cups of water) or 6 fluid ounces (12 tablespoons) in 1 gallon of water.

For rapid control of ticks, fleas and lice on cats and dogs, sponge solution onto entire animal, thoroughly soaking the hair, or dip the animal. Do not rinse; allow solution to remain on animal. In cases of heavy tick infestations on long-haired cats or dogs, dilute 1 fluid ounce of concentrate in 1 1/2 cups water) or 12 fluid ounces (24 tablespoons) of concentrate in one gallon of water.

Mist Spray: Dilute this concentrate at the rate of 7 fluid ounces in 1 gallon of water or 1 fluid ounce of concentrate in 18 fluid ounces of water.

For rapid control of ticks, fleas and lice using a mist spray. To insure thorough coverage, part the fur by stroking against the lay of the hair as spray is applied. Spray ticks directly. Apply to moisten the fur lightly.

To control spinose ear ticks and ear mites, syringe the ears with a few drops of this dilution so that it can penetrate the wax down to the surrounding tissues. Repeat treatment once or twice at 2 to 3 day intervals as necessary. For temporary protection from mosquitoes, eye gnats, biting flies and chiggers, apply to cover the surface of the hair. Repeat treatment as necessary when insects are troublesome.

Ticks are only an occasional pest of cats. This product will control ticks on cats should they occur.

270-185

LABEL BACK (CONT.)

To Control Insects in Kennels and Animal Quarters: Dilute at the rate of 13 fluid ounces in 1 gallon of water or 2 fluid ounces in 18 fluid ounces of water.

Remove pets before treating area and ventilate thoroughly before allowing them to re-enter treated area.

For rapid cleanout of fleas and ticks in kennels, apply this dilution in a good machine adjusted to deliver coarse droplets. Apply to the point of runoff with special attention to cracks and crevices and other insect hiding places. Bedding should be removed and sprayed thoroughly.

To control flies, mosquitoes and gnats in kennels, apply this dilution in a good sprayer adjusted to deliver a fine mist. Use at the rate of approximately 1 ounce for 1000 cubic feet of space. Fill the enclosed area with mist wherever practical. Keep doors and windows closed for 10 minutes or more after application. Do not remain in treated areas and ventilate after treatment is completed.

DISPOSAL

Do not reuse empty container.
Wrap container and put in trash collection.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS

C A U T I O N

Harmful if swallowed. Avoid contamination of feed and utensils by keeping them well covered while spraying the area.

Remove pets, birds and cover fish aquaria before spraying.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this product only as specified on this label.

In light of this information, the precautionary statement should be revised to read something like the following:

Harmful if swallowed or absorbed through skin.
Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. If swallowed, do not induce vomiting. Call a physician immediately. *Avoid contamination of food and utensils by keeping them well covered while spraying the area. Remove pets, birds and cover fish aquariums before spraying.*

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
