Fungicide, and Rodenticide Act  
as amended, and under the  
regulations thereunder, this  
product is registered under the  
270-190

BACK LABEL

E Q U I B L O C  
WITH EQUITROL II<sup>TM</sup>  
MOLASSES MINERAL BLOCK FOR PASTURED HORSES

For the first time the benefits of a feed-thru oral larvicide are available for pastured horses. Used as directed, Equibloc with Equitrol II will prevent the development of stable flies and house flies in the manure of pastured horses.

The normal daily intake of Equibloc with Equitrol II will prevent the development of fly larvae in the manure of treated horses. This product is not effective against existing adult flies. In some cases supplemental fly control measures may be needed in and around paddocks and buildings in the vicinity of pastures to control stable flies and adult house flies which can breed not only in manure but in other decaying vegetable matter or silage on the premises. In order to achieve optimum fly control, Equibloc with Equitrol II should be used in conjunction with other good management and sanitation practices.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To be fed daily at the rate of .07 grams of Equitrol<sup>TM</sup> in 0.5 ounce of block per 100 pounds of body weight. Example: 5 oz. (approximately 1/3 pound) of block for a 1000 pound horse daily.

BACK PANEL CONT'D

- \* Provide at least one block per five horses so that timid and smaller horses can get their share.
- \* Place the blocks where animals congregate -- loafing, grazing, feeding and watering areas.
- \* Feed blocks continuously. Add one additional block when EACH block has been consumed.
- \* Do not feed salt or mineral supplements or any kind containing salt.
- \* An acclimation period of 20 to 40 days may be required, especially for young horses, before horses start consuming the required dosage of approximately 1/3 lb. of block per 1000 lbs. body weight daily. For this reason it is important to begin feeding Equibloc 40 to 60 days before fly season begins.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS

CAUTION

Keep out of reach of children. Harmful if swallowed. Avoid contact with skin and eyes. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating or smoking. If in eyes, wash with plenty of water for 15 minutes. If irritation persists, see a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning equipment or disposal of wastes.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
