From a distance of approximately 12 inches, spray on scent-post locations where dogs void. These areas, such as garbage cans, shrubs, light posts, flowers, garden furniture, fences, etc. attract other dogs. For tender flowers and plants, mist the ground around them, but not directly on them.

For more effective results, spray folded paper towel or cloth and hang on scent-posts. Supplement Dog-Away treatments with verbal scolding whenever possible.

Repeat applications daily until dog's habits are broken.
