To prevent dogs from eliminating around scent-post locations, such as garbage cans, shrubs, light posts, flower gardens, furniture and fences, first remove any droppings and hose down any urine spots. From a distance of about 12 inches, spray areas to be protected for about 5 seconds. For tender flowers and plants, mist the ground around them, but do not spray directly on them. Alternatively, spray folded paper towel or cloth and hang on scent-post. Supplement Dog-Away treatments with verbal scolding whenever possible. Repeat applications daily until dog's habits are broken.
