DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Reformulation or repackaging of this product is prohibited. This labeling must be in the possession of the user at the time of pesticide application. For optimum pest control and to minimize the development of insect resistance, apply two tags per animal (one in each ear) in May to June or when flies first become a problem in the spring. Replace as necessary. FARNAM TURBO has been proven effective against pyrethroid resistant Horn Flies for a minimum of 4 months. Remove tags in the fall.
