**SHAKE WELL BEFORE USING**

Before applying FARNAM X-5369-99 to your horse, brush him down thoroughly to remove loose dust and dirt. Moisten, but do not soak, a folded piece of Turkish toweling (approximately 12" x 15" ) or an Applicator Mitt with FARNAM X-5369-99. Rub briskly against the growth direction of hair. Give special attention to shanks, legs, shoulders, neck and facial areas of the horse where flies tend to cause the greatest problems. Add more FARNAM X-5369-99 to the applicator as needed, applying approximately one to two ounces for the total application on a daily basis (the variance will depend on the size of the horse). Groom with a brush.

To kill attached ticks, dab FARNAM X-5369-99 directly on the tick with a saturated cloth.

For use with Farnam Repellent Strips: Saturate strips with FARNAM X-5369-99, allowing excess FARNAM X-5369-99 to drain from strip prior to use. See Farnam Repellent Strip label for proper attachment to horse.

**A FEW IMPORTANT POINTS TO REMEMBER:**

- To keep the applicator moist, keep in an airtight container between uses.
- Daily applications of FARNAM X-5369-99 may build up repellency allowing a reduction in the amount used in subsequent applications.
- Apply in early morning for maximum efficacy.
- The amount of FARNAM X-5369-99 needed depends on temperature, humidity, and cleanliness of the horse's coat. Experiment with the amount applied to determine how much your horse needs.

**PRECAUTIONARY STATEMENTS**
