Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 - Added 2 new ABNs and updated contact information and minor text corrections on label
Product Name: ADAMS FLEA AND TICK MIST
Admin Number: 270-343
EPA Receipt Date: 06/18/2025
Action Case Number: 00660510

Dear Noelle Sanfilippo:

The U.S. Environmental Protection Agency is in receipt of your application for notification under Pesticide Registration Notice 98-10 for the above referenced product. The EPA has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped "Notification" and will be placed in our records.

The alternate brand names: Flys-Off Insect Repellent for Dogs & Cats, Farnam Flys-Off Insect Repellent for Dogs & Cats have been added to the registration. Our records have been updated accordingly.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have questions, please contact Robert Mitchell via email at mitchell.robert@epa.gov.

Sincerely,

A handwritten signature in black ink that reads "Robert D. Mitchell (for)". The script is cursive and elegant, with the word "for" in parentheses at the end.

HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 800-234-2269 for emergency medical treatment information.	

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic organisms, including fish and invertebrates. Do not add directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

PHYSICAL OR CHEMICAL HAZARDS

FLAMMABLE. Keep away from heat and open flame. Contains alcohol. Do not apply to painted or finished wood surfaces.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply over cuts, wounds or irritated skin. Do not apply near eyes and mouth. **USE ONLY IN A WELL VENTILATED AREA.** For indoor use only. **Washing hands with soap and water promptly after use.** Not for use in outdoor residential misting systems.

DOGS AND CATS

Cover animal's eyes with hand and with a firm, fast stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips, rub into face around mouth, nose and eyes. Then spray neck, middle and hindquarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long haired dogs, rub your hand against the lay of hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat every 9 days.

Note that the recommended dose is about 4 squeezes of the trigger sprayer (0.13 fl. oz.) per pound of body weight. Short-haired dogs/puppies will need less; more spray may be needed for long-haired dogs/puppies. In all cases, apply spray until the coat is damp, not saturated.

PET'S INDOOR SLEEPING QUARTERS

For use in companion animal quarters only, do not broadcast outdoors. Remove pets, birds, and cover fish aquariums before use. Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment, and food preparation surfaces, or wash them before use. Do not remain in treated area. Exit immediately and remain outside treated area until vapors and mists have dispersed. Spray around baseboards, windows, doorframes, wall cracks and local area of floors. If mosquitoes, gnats or flies are present, spray lightly into air. Repeat every 9 days. The pet's bedding should be sprayed, making sure the area beneath the bedding is also sprayed. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with one of our registered flea and tick control products before allowing them to enter treated area.

HORSES

CAUTION: Do not use on horses or foals intended for slaughter. Do not apply over cuts, wounds, or irritated skin. Do not apply near eyes and mouth.

To control stable flies, horse flies, deer flies and face flies, apply to face, legs, flanks, top line and other body areas commonly attacked by these flies. Repeat every 9 days.

Precautions and Restrictions:

Entry Restriction

Except when applying directly to pets, do not allow adults, children, or pets to enter until sprays have dried.

Application Restrictions

Except when applying directly to pets, do not apply this product in a way that will contact adults, children, or pets, either directly or through drift.

Premise Treatment

Do not wet articles to point of runoff or drip. Do not use treated article until spray has dried.

Animal Use

Do not apply to animals less than 12 weeks old. Consult a veterinarian before applying this product on medicated, debilitated, aged, pregnant, or nursing animals. Sensitivities may occur after using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container in a cool, dry place, inaccessible to children and pets. If a leaky container must be contained within another, mark the outer container to identify the contents. Do not store near heat or open flame. Store pesticides away from food, pet food, seed, fertilizers, and veterinary supplies.

Pesticide Disposal: Nonrefillable container. Do not reuse or refill this container. **If Empty:** Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
