DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

STORAGE: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

DISPOSAL: Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides, or buried in a safe place away from water supplies. Triple rinse (or equivalent) all containers. Dispose of containers in landfill approved for pesticide containers, or bury in a safe place. Consult federal, state, or local disposal authorities for approved alternative procedures.

USE AS A PRESERVATIVE

BIOBAR CS-1135 is effective as a preservative in water-containing systems, such as latex paints and resin emulsions, at a concentration of 0.1 to 0.5 lb per 100 lb total formulation weight.

BIOBER CS-1135 may be added at any point in the manufacturing cycle. The recommended rate for preservation of a latex paint is 0.1 to 0.2 lb per 100 lb of the formulation. The recommended rate for preservation of resin emulsions is approximately 0.2 lb per 100 lb of the formulation.
