BACK PANEL

DIRECTIONS

SHAKE GENTLY BEFORE EACH USE. Remove protective cap. Hold container upright about 2 feet from object to be sprayed with opening in nozzle pointing to desired direction. Press button to release spray. Spray directly on insects where possible.

TO KILL HOUSEHOLD INSECTS

**Flying Insects:** (including resistant strains) Flies, Gnats, Mosquitoes, Wasps, Flying Moths. Close doors and windows of room. Spray all parts of room with sweeping circular motion keeping about 3 feet from walls, furniture, fabrics. Keep room closed for 15 minutes after spraying. Cover exposed food and utensils before spraying.

**Crawling Insects:** Roaches, Ants, Bedbugs, Silverfish, Weevils. Spray directly on insects when possible or spray insect hiding places--under sinks, stoves, in crevices, cracks, around doorsills, pipes, window frames, storage areas, refuse areas, etc. for ants--spray ant-trails. Avoid direct spraying of foods. Spray mattresses and beds for bedbug control. For fleas, thoroughly spray floors and floor coverings, baseboards, upholstered furniture and sleeping quarters and bedding of animal pets.

**Clothes Moths, Carpet Beetles:** Clean woolens thoroughly before spraying. Spray garments completely from a distance of 2 feet. Do not skip folds and seams. Unless garments are stored in moth-proof container, repeat spraying monthly. Interior surfaces of storage closets and trunks must be sprayed for complete protection. NON-STAINING when used as directed.

BACK PANEL

TO KILL GARDEN INSECTS

**For Plants:** Hold can 1 1/2 ft. from foliage. Spray with one-second bursts, using sweeping motion. Direct spray on insects. Spray all sides of plant foliage lightly. For effectiveness and economy, never wet heavily. New growths and young plants should be sprayed with particular care. Avoid using in direct sunlight or during hottest daylight hours. (Do not use when temperature is 90° or more.) Repeat when necessary. DO NOT SPRAY CYCLAMEN, LANTANA, OR MAIDEN-HAIR FERN.

**As an area spray:** Spray light mist when air is still. Spray outdoor furniture, picnic tables. Avoid spraying directly on foods.

**CAUTION:** Do not puncture or incinerate container. Do not store above 120° F. Do not use near heat or open flame.
