PRO-GIBB® 47

Biorational Plant Growth Regulator
Gibberellins A₄A₇
For Seedbed Cucumbers

Active Ingredient:
Gibberellic Acid 0.806% w/w
Inert Ingredients .. 99.194% w/w

KEEP OUT OF REACH OF CHILDREN

CAUTION

LIQUID FORMULATION

WARNING: FLAMMABLE. Keep away from heat and open flame. Keep container tightly closed when not in use.

STORAGE AND DISPOSAL
See container label.

REENTRY STATEMENT

Do not enter treated areas without protective clothing until sprays have dried.

Written or oral warnings must be given to workers who are expected to be in a treated area or in an area about to be treated with this product. Oral warnings must include the following information:

Inform workers of areas or fields that must not be entered without appropriate protective clothing until sprays have dried. In case of accidental

exposure, wash with plenty of water. If there is any irritation in eyes after washing, get medical attention. If inhaled, move to fresh air.

When oral warnings are given, warnings shall be given in a language customarily understood by workers. Oral warnings must be given if there is reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information:

Area treated with Pro-Gibb 47 on (date of application). Do not enter without appropriate protective clothing until sprays have dried. In case of accidental exposure, wash with plenty of water. If there is any irritation in eyes after washing, get medical attention. If inhaled, move to fresh air.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR PICKLE TYPE CUCUMBERS — To form male flowers for seed production on hybrid gynococious cucumbers (which normally produce only female flowers):

Apply PRO-GIBB® 47 as a foliar spray to every third row of the seedbed at a rate of 50 gallons per acre using a concentration of 50 ppm of active ingredients. This application is made as the first true leaf expands to one inch diameter. A second and third application should be made at five-day intervals at the same concentration.

Contents of one bottle (5 fluid ounces) of Pro-Gibb 47 diluted to 5 gallons with water provides a concentration of 50 ppm of gibberellins A₄A₇.
