

Abbott Laboratories
Pro-Gibb Spraying Guide
Pro-Gibb 3.91
EPA Reg. No. 275-15
Amendment 12-8-83

Grapefruit, Star Ruby Variety
(Texas)

To reduce early-season drop of small fruit of
Star Ruby Variety thereby increasing yields.

Guide: Apply a single spray during the
bloom period.

Use Pro-Gibb 3.91% Liquid Concentrate. Use
25 fluid ounces (1-1/4 20-ounce bottles)
(25 grams*) in 250 gallons water final spray
mixture per acre. A suitable surfactant may
be used to enhance efficacy.

Caution: Do not tank-mix with other chemi-
cals.

Do not apply concentrated solution.

Results may vary season to season depending
on environmental conditions.

Maintain a well-balanced fertilization and
watering program.
