DIPEL® Biological Insecticide Wettable Powder

Supplemental Directions for Use of
DIPEL® WP on Tobacco

APPLICATION RATE

Thorough Coverage is Essential for Good Control

Crop	Pest	Application Rate
Tobacco	Tobacco Budworm	1/2-1 lb/acre
	Cabbage Looper	1/2-1 lb/acre
	Hornworm	1/4-1/2 lb/acre

DIPEL may be tank mixed with maleic hydrazide at recommended rates on tobacco. Do not add other types of sucker control materials.

Follow the application directions on the maleic hydrazide label and all label precautions for both products.
