Mr. Marvin H. Alphin
CAPD Regulatory Affairs
Abbott Laboratories
1401 Sheridan Road
North Chicago, IL 60064-4000

Dear Mr. Alphin:

Subject: Vectobac CG Revised Labeling
EPA Registration Nos. 275-70

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments below.

1. Add the following referral statement to the front panel under the signal word CAUTION, "See side panel for additional precautionary statements."

2. Delete "highly selective". You may claim that your product does not harm specific life stages of specific insects when supporting data is submitted which supports such claims.

A stamped copy is enclosed for your records. Submit five final printed labels.

Sincerely,

Phillip Hutton
Product Manager 18
Insecticide-Rodenticide Branch
Registration Division (7505C)

STATEMENT OF PRACTICAL TREATMENT

If in eyes, flush eyes with plenty of water. Get medical attention if irritation persists.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles.

STORAGE AND DISPOSAL

Do not contaminate potable water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry place.

PESTICIDE DISPOSAL: Wastes resulting from use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

APPLICATION DIRECTIONS

VectoBac CG is a highly selective insecticide for use against mosquito larvae.

Mosquitoes

Habitat

(Such as the following examples):

Irrigation ditches, roadside ditches, flood water, standing ponds, woodland pools, snow melt pools, pastures, catch basins, storm water retention areas, tidal water, salt marshes and rice fields.

Suggested Range Rate*

2.5 - 10 lbs/acre

In addition, standing water containing mosquito larvae, in fields growing alfalfa, almonds, asparagus, corn, cotton, dates, grapes, peaches and walnuts may be treated at the recommended rates.

BEST AVAILABLE COPY

4 9 4

*Use 10-20 lbs./acre when late 3rd and early 4th instar larvae predominate, mosquito populations are high, water is heavily polluted, (sewage lagoons, animal waste lagoons), and/or algae are abundant.

Apply uniformly by aerial or ground conventional equipment.

A 7 to 14 day interval between applications should be employed.

NOTICE TO USER

Seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on the label. User assumes all risks of use, storage or handling not in strict accordance with accompanying directions.
